Notes: Key fields are: Crop/Commodity Code (field 1), Insurance Plan Code (field 2)

Key fields with Level of Change = 2 requiring a change to that field, company will use an administrative screen to identify this change. eDAS will use this information to verify the data when submitted.

eDAS will use the applicable date for the crop/plan code to establish the fund cutoff date. See the Narrative. For AGR-Lite the sales closing date of 3/15/2006 will be used for new insureds. For carryover AGR-Lite insureds the cancellation date of 1/31/2006 will be used. For AGR the sales closing date of 1/31/2006 will be used for all insureds.

A carryover for AGR/AGR-Lite is defined as 'an entity having insurance on the same crop/plan code with the same insurance provider the previous year.'
