

This sheet should be filled out first. General information about the report, and the reporting agency, is defined here.

If the agency's FOIA information is reported by 'component' (sub-organization, office, division), the components must be defined here. Component abbreviations entered here are available throughout this workbook in drop-down lists, allowing entry of information for each component.

You can make room to enter additional components by right-clicking on any editable cell in the component definition table and choosing 'Add Row'. A new, empty component row will be added at the bottom of the table. If you select multiple existing rows within the component definition table, right-click over the selected area, then choose 'Add Row', a corresponding number of component rows will be added at the bottom of the table. This convention is used throughout this workbook for expanding the size of entry tables.
