## Requests Report Requested between 10/01/2014 and 03/17/2015

ID	Type	Requested Date	Requester Name	Organization	Request Description	Request Status
2015- RMA- 00012- F	FOIA	10/01/2014		The Benefit Coordinators	I request the the following information of DEPARTMENT OF AGRICULTURE\RISK MANAGEMENT AGENCY; Employee name (first and last), duty position\job title, hire date, annual\hourly wage, facility name\building, employment address, city, state, and Zip Code. An example of the data requested is listed below: John Smith Investigator 12/03/198 7 \$75,840 George Washington Hall, 4th Floor 2300 East 29th St	Closed
2015- RMA- 00247- E	FOIA	10/16/2014	Deryugina, Tatyana	University of Illinois	Washington, DC 20250  I would like county-cropinsurance-level information on crop insurance by irrigation status. Specifically, I would like a dataset similar to the county-crop-insurance-coverage level Summary of Business files available online, but further broken down by irrigated versus non-irrigated crops. The dataset should include the state and county fips codes, the insurance plan code/name, the crop code/name, the coverage level, whether the plan is for irrigated or non-irrigated crops, and the number of insurance plans, premiums paid, subsidies, indemnities, and liability. Please let me know if you would like clarification of any of these. I would like data on an annual basis from 1981 through 2013, the same years that the Summary of Business files cover.	Closed

					certified or transitional organic	
					land, but it doesn't breakout	
					which policies utilize an organic	
					price election (vs. policies	
					insuring organic crops at the	
					conventional price). I am	
					interested in finding out the total	
					number of policies issued over	
					the last 5-10 years with an	
					organic price election. I am also	
					interested in the total number of	
					Contract Price Addendum's (CPA)	
					utilized over the last 5 years	
					including for 2014. I am	
					especially interested the number	
					of CPA's issued under the new	
					rules (for 2014) that allow more	
					organic use of CPA's. I	
					understand that prior to 2014	
					there were some crops for which	
					you could use a CPA to insure an	
					organic crop at the organic price	
					in the contract and would like to	
					know how many policies were	
					issued in that manner if possible.	
					It would also be great to have all	
					this data by state if possible? One	
					final question, are policies	
					insuring crops at the organic	
					price included in the total number	
					of policies for each crop listed in	
					the Generator? For example if I	
					look at the total number of all	
					policy types for corn in Iowa,	
					does this total include corn	
					policies with an organic price	
					election? (Date Range for Record

					be beneficial for us to evaluate	
01002-					the program. If we can get a	
F					copy of those request to benefit	
<u>-</u>					from the completed work and	
					data already gathered, that	
					would be appreciated. Second, I	
					wanted to specify our ideal data	
					request in hopes that we can find	
					· ·	
					a good solution to what can be	
					provided versus our ask. Ideally	
	1	i			we would like to receive the	
					following: • Historical data for	
					following: • Historical data for each year, as far back as possible	
					each year, as far back as possible (at least back to 1998 if able); •	
					each year, as far back as possible (at least back to 1998 if able); • Year; • State; • C ounty; • Crop;	
					each year, as far back as possible (at least back to 1998 if able); • Year; • State; • C ounty; • Crop; • Producer yields used for APH	
					each year, as far back as possible (at least back to 1998 if able); • Year; • State; • C ounty; • Crop; • Producer yields used for APH calculations; • Each producer's	
					each year, as far back as possible (at least back to 1998 if able); • Year; • State; • C ounty; • Crop; • Producer yields used for APH	

					endorsement was purchased; • The yield used for determining coverage (APH or with the TY endorsement); • The actual yields for each producer; • The size of producers' unit (on which the APH and yields are calculated); • An indication if the producer had enterprise units, optional units or other; • The type of policy purchased (RP, YP, CRC, RA, etc. as applicable); • The coverage level; Recognizing that there are some confidentiality issues that need to be managed, I suggest that we eliminate any producer, agent or company related information. If there are concerns about providing county level data, then we would first suggest to report to the Crop Reporting District—and round all producer farm units to nearest 10 acres. (We can provide a list of counties for each CRD if that is not already in the records). We are hoping to preserve the integrity of the data to the maximum extent possible, and therefore would like to avoid aggregating production and yield	
					aggregating production and yield information among farmers. If that is absolutely necessary, then we would ask to combine like farmers in terms of county (or CRD), APH and farm size with the least number of farmers possible	
					when making averages.
