

United States Department of Agriculture Risk Management Agency

April 2010

2010 COMMODITY INSURANCE FACT SHEET

Corn

Utah

Crop Insured

Field corn planted for harvest as grain or silage may be insurable. In counties where rates are not provided by an actuarial table, the crop may be insurable by written agreement if specific criteria are met.

Counties Available

Corn is insurable in Beaver, Box Elder, Cache, Carbon, Davis, Duchesne, Emery, Grand, Iron, Juab, Millard, Salt Lake, Sanpete, Sevier, Tooele, Uintah, Utah and Weber counties. Corn in other counties may be insurable by written agreement if specific criteria are met. Contact an agent for more details.

Causes of Loss

Adverse weather conditions¹
Failure of irrigation water supply²
Fire
Insects³
Plant disease³
Wildlife

Insurance Period

Coverage usually begins when the crop is planted and ends at the earliest of:

- Total destruction of the crop on a unit
- Harvest of the crop
- Final adjustment of a loss on a unit
- Calendar date for the end of insurance on December 10th for grains and September 30th for silage

Important Dates

Sales Closing	*March 15
Earliest Plant Date	
Final Planting	*June 15
Acreage Report Due	*June 30
*Dates may vary by county. Please	consult an insurance
agent.	

Coverage Levels and Premium Subsidies

Individual amounts of insurance are based on a grower's production history. Each grower's approved average yield is calculated from 4 to 10 years of production records provided to an insurance agent. Producers can select a level of coverage from 50 to 75 percent of their approved average yield and 55 to 100 percent of a price announced by USDA, or catastrophic (CAT) coverage based on 50 percent of their approved yield and 55 percent of the price.

Price Elections: Price used to calculate your premium and indemnity.

Base Price (CRC): to be announced Harvest Price (CRC): to be announced

Grain (APH): \$3.55 per bushel Silage (APH): \$36.25 per ton

Cost of Insurance

The Agricultural Risk Protection Act of 2000 raised the subsidies for federal crop insurance premiums substantially. For CAT coverage, growers pay an application fee of \$300 with 100 percent of the premiums being subsidized. Higher coverage levels are subsidized at lower rates; USDA pays at least 50 percent of the premium. For more detailed information about the amounts of coverage and premiums, please contact a crop insurance agent or your local county Farm Service Agency office for an agent listing.

¹Natural perils such as hail, frost, freeze, wind, drought, and excess moisture.

²If caused by an insured peril during the insurance period.

³But not damage due to insufficient or improper application of control measures.

Loss Example

Corn (for grain) based on actual production history (APH) yield of 100 bushels per acre, 75-percent coverage level, 100-percent share

\$53.25	Indemnity per acre
x \$3.55	Price Election
15	Bushel per acre loss
<u>- 60</u>	Bushel per acre actually produced
75	Bushel per acre guarantee
<u>x .75</u>	Coverage level
100	Bushel per acre average yield (APH)

Where to Purchase Crop Insurance

All multi-peril crop insurance, including CAT coverage insurance policies, are available from private insurance agents. A list of crop insurance agents is available on the RMA Web site at: http://www3.rma.usda.gov/tools/agents/
