May 2012

2012 COMMODITY INSURANCE FACT SHEET

Alfalfa Seed Pilot

Crop Insured

Irrigated alfalfa seed is insurable if grown solely for harvest as certified forage seed under certification standards of a certifying agency or grown under a forage seed contract.

The policy does not cover a forage seed crop that:

- Is interplanted with another crop;
- Does not have an adequate stand at the beginning of the insurance period as shown below;

ESTABLISHED	FALL PLANT-	SPRING
STAND	ED	PLANTED
(# Living & fully	SEED TO SEED	SEED TO SEED
developed alfalfa	(# Living alfalfa	(# Living alfalfa
plants/sq. ft.)	plants/sq. ft.)	plants/sq. ft.)
.34	1.03	1.03

- Exceeds the earlier of the maximum age of stand stipulated by the originator of the certified seed or the 5th and succeeding crop year after the crop year of initial seeding; or
- Used for any purpose during the crop year other than for seed production.

Counties Available

Alfalfa seed is insurable in Humboldt and Pershing counties. The crop may be insurable in other counties by written agreement if specific criteria are met. Contact an agent for more details.

Insured Causes of Loss

Adverse weather conditions¹ Earthquake Failure of irrigation water supply² Fire Insects³ Plant disease³ Volcanic eruption Wildlife

¹Natural perils such as hail, frost, freeze, wind, drought, and excess

moisture.

²If caused by an insured cause of loss occurring during insurance period. ³But not due to insufficient or improper application of control measures.

Uninsured Causes of Loss

- (1) Crop not being timely harvested;
- (2) Insufficient supply of pollinators;
- (3) Failure of certification standard or seed contract acceptance caused by failure to follow proper isolation requirements or inadequate weed control;
- (4) Failure of certification standard or seed contract acceptance due to failure to follow all other certification or contract requirements.

unless solely and directly caused by an insurable cause of loss.

Important Dates

Sales Closing	October 31	
Acreage Reporting	April 15	
for established stands and fall planted seed to seed		
Acreage Reporting	June 30	
for spring planted seed to seed		

Insurance Period

Insurance begins on acreage with an adequate stand on November 1 for fall-planted seed to seed and established stands and May 15 for spring-planted seed to seed. Insurance ends the earliest of:

- (1) Total destruction of the crop;
- (2) Final adjustment of a loss on a unit;
- (3) Abandonment of the crop;
- (4) Harvest (removal of the seed from the windrow or field);
- (5) The date grazing starts on the crop; or
- (6) October 31.

Reporting Requirements

In addition to the acreage reported by the acreage reporting date, you must supply:

This fact sheet gives only a general overview of the crop insurance program and is not a complete policy. For further information and an evaluation of your risk management needs, contact a crop insurance agent.

- A copy of your forage seed contract for your contracted acreage or,
- If not contracted, a copy of the accepted certification application for your certified seed acreage.

Coverage Levels and Premium Subsidies

The guarantee is measured in pounds of seed and based on the growers past production. You can select coverage levels from 50 to 75 percent of approved average yield; and 55 to 100 percent of a price announced by USDA. Catastrophic Risk Protection (CAT) coverage guarantees 50 percent of your approved average yield and 55 percent of the announced price.

Price Election

For seed grown under contract, the price election is the price per pound stated in the forage seed contract. For certified seed not under a seed contract, the price election is \$1.80 per pound.

Cost of Crop Insurance

CAT coverage has an application fee of \$300 with 100 percent of the premiums being subsidized. Higher coverage levels are subsidized at lower rates for an application fee of \$30. For more information about coverage and premiums, please contact a crop insurance agent.

Loss Example

Assume an average yield of 300 pounds per acre, 65percent coverage, a contract price of \$1.80, and 100percent share.

- 300 Pounds per acre average yield
- <u>x .65</u> Coverage level
 - 195 Pounds per acre guarantee
- 100 Pounds per acre actually produced
 - 95 Pounds per acre loss
- $\underline{x \$ 1.80}$ Contracted price
 - \$171 Gross indemnity per acre

Where to Buy Crop Insurance

All multi-peril crop insurance, including CAT policies, are available from private insurance agents. A list of crop insurance agents is available on the RMA Web site at:
