Coverage Levels and Premium Subsidies

Coverage levels range from 50 to 75 percent of your average yield. Unit measure is hundredweight (cwt.). Producers may select 55 to 100 percent of a price announced by USDA.

Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of your average yield and 55 percent of the price election.

Price Election

The price used to calculate your premium or indemnity.

Potatoes.....**\$10.00 per cwt.**

Cost of Crop Insurance

CAT coverage has an application fee of \$300 with 100 percent of the premiums being subsidized. Higher coverage levels are subsidized at lower rates though USDA pays at least 50 percent of the premium. For more detailed information about coverage and premium amounts, please contact a crop insurance agent or your local county Farm Service Agency office for an agent listing.
