Crop Insured
Seven types of stonefruit, designated by their intended use, are insurable if:
- They are fresh and processing apricots;
- They are fresh and processing freestone peaches;
- They are fresh nectarines;
- They are cling peaches for processing; and
- They are fresh plums.
You must insure all your acreage of a particular type of stonefruit in a county. However, since each type is insured separately, one type can be insured and not another.

Counties Available
Stonefruit is insurable in Butte, Contra Costa, Fresno, Kern, Kings, Madera, Merced, San Benito, San Joaquin, Santa Clara, Solano, Stanislaus, Sutter, Tulare, Yolo, and Yuba counties.
Stonefruit in other counties may be insurable by written agreement if specific criteria are met. Contact a crop insurance agent for more details.

Causes of Loss
You are protected against the following:
- Adverse weather conditions;
- Earthquake;
- Failure of irrigation water supply, if caused by an insured peril during the insurance year;
- Fire; unless weeds have not been controlled or pruning debris has not been removed from the orchard;
- Insects or plant disease, but not damage due to insufficient or improper application of control measures;
- Volcanic eruption; and
- Wildlife.

Insurance Period
Coverage begins on February 1 for each crop year. Coverage ends at the end of the insurance period on:
- July 31 for all apricots; or
- September 30 for all nectarines and peaches; or
- October 20 for all fresh plums.

Important Dates
Sales Closing/Cancellation.................January 31, 2018
Acreage Reporting...........................March 15, 2018
Premium Billing..............................August 15, 2018
Termination..................................January 31, 2019

Coverage Levels and Premium Subsidies
Coverage levels range from 50 to 75 percent of your approved yield. Crop insurance premiums are subsidized as shown in the following table. For example, if you choose the 65-percent coverage level, your premium share would be 41 percent of the base premium.

<table>
<thead>
<tr>
<th>Item</th>
<th>50</th>

</tr>
</tbody>
</table>

Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of your approved yield and 55 percent of the price election. CAT is 100-percent subsidized with no premium cost to you. There is, however, an administrative fee of $300 per crop per county, regardless of the acreage.

Price Election
The price used to calculate your premium and indemnity. Contact your crop insurance agent for price election changes for the current crop year.

This fact sheet gives only a general overview of the crop insurance program and is not a complete policy. For further information and an evaluation of your risk management needs, contact a crop insurance agent.
**Loss Example**
Assume 65-percent coverage level, $470 per ton price election, a yield of 8.0 tons per acre, and 100-percent share for Processing Apricots.

\[
\begin{array}{cc}
8.0 & \text{Tons per acre average yield} \\
\times 0.65 & \text{Coverage level percentage} \\
5.2 & \text{Tons per acre guarantee} \\
- 2.0 & \text{Tons per acre actually produced} \\
3.2 & \text{Tons per acre loss} \\
\times \$470 & \text{Price election} \\
\$1,504 & \text{Gross indemnity per acre}
\end{array}
\]

Price used above is for example only. Contact a crop insurance agent for current information.

**Where to Buy Crop Insurance**
All multi-peril crop insurance, including CAT policies, are available from private insurance agents. A list of crop insurance agents is available at all USDA service centers and on the RMA website at www.rma.usda.gov/tools/agent.html.
