

Springfield Regional Office — Springfield, IL

Revised August 2017

Forage Production

Illinois

Crop Insured

You can insure forage production if it is:

- Pure alfalfa;
- Alfalfa and grass mix; or
- Pure red clover.

For which:

- Premium rates are provided; and
- You have a share.

Insurance is **not** available for any acreage that:

- Does not have an adequate stand at the beginning of the insurance period;
- Is grown with a non-forage crop;
- Is grown for rotational grazing purposes; or
- Exceeds the age limitation contained in the Special Provisions.

Counties Available

Forage Production APH is available in Jo Daviess and Stephenson counties.

Causes of Loss

You are protected against the following:

- Adverse weather;
- Earthquake;
- Failure of irrigation water supply;
- Fire;
- Insect damage and/or plant disease, unless you have insufficiently or improperly applied pest or disease control measures;
- Volcanic eruption; or
- Wildlife.

Insurance Period

Coverage begins on fall seeded acreage October 16, 2017, following the year of establishment on acreage that has an adequate stand.

Coverage begins on spring seeded acreage May 22, 2018, following the year of establishment on acreage that has an adequate stand.

Coverage ends the earliest of:

- Total destruction of the forage crop;
- Removal from the windrow or the field for each

cutting;

- Final adjustment of a loss;
- The date grazing commences;
- Abandonment of the forage crop; or
- October 15, 2018.

Important Dates

Sales Closing/Cancellation....September 30, 2017

Acreage Reporting..... December 15, 2017

Reporting Requirements

You must report all of your forage acreage, production and any losses, when evident, to your insurance agent.

Definitions

Adequate Stand - A population of live forage plants that equals or exceeds the minimum required number of plants per square foot as shown in the Special Provisions.

Year of Establishment - The period between seeding and when the forage crop has developed an adequate stand. Determined by the date of seeding.

Coverage Levels and Premium Subsidies

Crop insurance premiums are subsidized as shown in the following table. For example, if you select the 75-percent coverage level, the premium subsidy is 55 percent and your premium share is 45 percent of the base premium.

| Item | Percent | | | | | |
|-----------------|---------|----|----|----|----|----|
| Coverage Level | 50 | 55 | 60 | 65 | 70 | 75 |
| Premium Subsidy | 67 | 64 | 64 | 59 | 59 | 55 |
| Your Share | 33 | 36 | 36 | 41 | 41 | 45 |

Price Elections

A price election is the price you are paid per ton if you have a loss. This is based on the percentage of established price you chose.

Coverage Options

Actual Production History (APH) - You choose the amount of your average yield you wish to insure and the percent of the RMA predicted price. If your production falls below the yield insured, you are paid a loss.

Area Yield Protection (AYP) - Protects against widespread yield loss, usually on a county basis.

Catastrophic Coverage (CAT) - Pays 50 percent of your average yield and 55 percent of the projected price. CAT has no premium but does have a \$300 administrative fee per crop per county.

Replanting and Prevented Planting

Replant payments, late planting, and prevented planting are **not** available.

Loss Example

Assume you have 100-percent share in 100 acres of Alfalfa in the unit, with a guarantee of 3.0 tons per acre and a price election of \$162.00 per ton. Due to adverse weather, you were only able to harvest 50.0 tons. Your insurance payment would be calculated as follows:

| | |
|-----------|---------------------------|
| 100 | Acres |
| x 3.0 | Tons |
| 300 | Ton guarantee |
| x \$162 | Price election |
| \$48,600 | Total value guarantee |
| 50 | Actual tons produced |
| x \$162 | Price election |
| \$8,100 | Total value tons produced |
| \$48,600 | Total value guarantee |
| - \$8,100 | Total value tons produced |
| \$40,500 | Loss |
| x 1.0 | Share |
| \$40,500 | Final Payment |

Where to Buy Crop Insurance

You can buy a crop insurance policy from approved participating insurance agents. You can get a list of agents at any USDA service center or on the RMA web site www.rma.usda.gov/tools/agent.html.
