Price Elections
A price election is the price you are paid per ton if you have a loss. This is based on the percentage of the established price you chose. For the 2018 crop year, you may choose 55 to 100 percent of the established price.

Coverage Options
Actual Production History (APH) - The only plan of insurance available for processing sweet corn. You choose the amount of your average yield to insure (50-85 percent) and the percent of the RMA established price (55-100 percent). If your production falls below the yield insured, a loss is paid.
**Replanting and Prevented Planting**

**Replanting** - Replant payments are not available for processing sweet corn.

**Prevented Planting** - You may receive a prevented planting payment if you are unable to plant on or before the final planting date because of an insurable cause.

**Loss Example**

A loss occurs when crop production falls below your guaranteed tonnage. This example assumes 65-percent coverage level, a price election of $149.00, an average yield of 10 tons per acre with .667 share, and production of 40 tons.

\[
\begin{align*}
10 & \text{ Ton APH yield} \\
\times 0.65 & \text{ Coverage level} \\
6.5 & \text{ Ton per acre guarantee} \\
\times 10 & \text{ Acres} \\
65 & \text{ Ton unit guarantee} \\
- 40 & \text{ Ton production} \\
25 & \text{ Ton loss} \\
\times $149 & \text{ Price election} \\
$3,725 & \text{ Unit payment} \\
\times 0.667 & \text{ Share} \\
$2,485 & \text{ Final payment}
