

Springfield Regional Office — Springfield, IL

Revised January 2018

Dry Beans

Michigan

Crop Insured

You can insure dry beans if:

- Premium rates are provided;
- They are grown on insurable acreage;
- You have a share;
- They are planted in rows wide enough to allow cultivation; and
- They are intended for harvest as dry beans.

Counties Available

Dry Beans are insurable in Alcona, Alpena, Arenac, Bay, Clinton, Delta, Eaton, Genesee, Gladwin, Gratiot, Huron, Ingham, Ionia, Iosco, Isabella, Kalamazoo, Kent, Lapeer, Mecosta, Midland, Montcalm, Ogemaw, Presque Isle, Saginaw, Sanilac, Shiawassee, St. Clair, and Tuscola Counties.

Causes of Loss

You are protected against the following:

- Adverse weather;
- Earthquake;
- Failure of irrigation water supply;
- Fire;
- Insect damage and/or plant disease, unless you have insufficiently or improperly applied pest or disease control measures;
- Volcanic eruption; or
- Wildlife.

Insurance Period

Coverage begins on the later of:

- The date we accept your application, or
- The date you plant the beans.

Coverage ends at the earliest of:

- Total destruction of the crop;
- Harvest of the crop;
- Final adjustment of a loss;
- Abandonment of the crop; or
- October 31, 2018.

Important Dates

Sales Closing/Cancellation..... March 15, 2018
 Final Planting..... June 25, 2018
 End of Late PlantingJuly 15, 2018
 Acreage Report.....July 15, 2018

Reporting Requirements

You must report all of your dry bean acreage, production, and any losses, when evident, to your insurance agent.

Coverage Levels and Premium Subsidies

Crop insurance premiums are subsidized as shown in the following table. For example, if you select the 75-percent coverage level for an Enterprise Unit, the premium subsidy is 77 percent and your premium share is 23 percent of the base premium.

	Coverage Level (percent)	50	55	60	65	70	75	80	85
Subsidy Factors	Enterprise Unit	80	80	80	80	80	77	68	53
	Basic Unit	67	64	64	59	59	55	48	38
	Optional Unit	67	64	64	59	59	55	48	38

Price Elections

A price election is the price you are paid per pound if you have a loss.

Prices for types with true revenue coverage -

Projected and harvest prices for black, dark red kidney, navy, pinto, and small red types will be determined as shown in Section 7(e) of the dry bean revenue endorsement. Contact your insurance agent for established prices for dry bean varieties.

Prices for all other types - Harvest price will be equal to the projected price for all dry bean types not covered by the dry bean revenue endorsement.

Coverage Options

Yield Protection - Protects against a production loss.

Revenue Protection - Protects against loss of revenue due to a production loss, change in price, or a combination of both.

Revenue Protection with Harvest Price Exclusion - Protects against loss of revenue due to a production loss, price decline, or a combination of both.

Catastrophic Risk Protection Coverage (CAT) - Available only with yield protection. Pays 50 percent of your average yield and 55 percent of the projected price. CAT has no premium but does have a \$300 administrative fee per crop per county.

Replanting and Prevented Planting

Practical to Replant - Your company will determine if it is practical to replant. The processor must agree, in writing, that it will accept production from replanted acreage.

Replant Provisions

You may receive a replant payment if:

- It is practical to replant; and
- The appraisal does not exceed 90 percent of your production guarantee.

Replant payments are not available on CAT coverage.

Late Planting Period - If you choose to plant after the final planting date, the insurance guarantee is reduced by one percent for each day after the final planting date. After 20 days, the guarantee is 60 percent.

Prevented Planting - You may receive a prevented planting payment if you are unable to plant on or before the final planting date because of an insurable cause.

Loss Example

Yield Protection Example - This example assumes 1,600 pounds per acre APH yield for navy type, 65-percent coverage level, and basic unit coverage.

1,600	pounds/acre APH yield
<u>x0.65</u>	coverage level
1,040	pound guarantee
<u>- 700</u>	pounds/acre produced
340	pounds/acre loss
<u>x \$0.34</u>	projected price
\$116.00	Final Payment per acre

Revenue Protection Example

1040	pound guarantee
<u>x \$0.34</u>	projected price
\$354.00	guarantee per acre

700	pounds/acre produced
<u>x \$0.23</u>	harvest price
\$161.00	revenue per acre

354.00	guarantee per acre
<u>-161.00</u>	revenue per acre
\$193.00	Final Payment per acre

Where to Buy Crop Insurance

You can buy a crop insurance policy from approved participating insurance agents. A list of crop insurance agents is available at all USDA service centers and on the RMA website at www.rma.usda.gov/tools/agent.html.
