Subsidy Factors	Enterprise Unit		80	80	80	80	80	77	68	53

Projected and Harvest Prices

Projected Price - Based on the Chicago Board of Trade September Futures Contract from February 1, 2018, to February 28, 2018.

Harvest Price - Based on the Chicago Board of Trade September Futures Contract from August 1, 2018, to August 31, 2018. A harvest price protects you when prices are above the projected price.

Coverage Options

Yield Protection - Only protects against a production loss.

Revenue Protection - Protects against loss of revenue due to a production loss, change in price, or a combination of both.

Revenue Protection with Harvest Price Exclusion -
Protects against loss of revenue due to a production loss, price decline, or a combination of both.

Catastrophic Risk Protection Coverage (CAT) -
Pays 50 percent of your average yield and 55 percent of the projected price. CAT has no premium but does have a \$300 administrative fee per crop per county.

Replanting and Prevented Planting

Replant Provisions

You may receive a replant payment if:

- It is practical to replant;
- The appraisal does not exceed 90 percent of your guarantee; and
- You replant at least 20 acres or 20 percent of the unit.

Late Planting Period - If you choose to plant after the final planting date, the insurance guarantee is reduced by one percent for each day after the final planting date. After 25 days, the guarantee is 60 percent.

Prevented Planting - You may receive a prevented planting payment if you are unable to plant on or before the final planting date because of an insurable cause.
