

## Springfield Regional Office — Springfield, IL

Revised January 2018

# Sugar Beets

## Michigan

### Crop Insured

You can insure sugar beets if:

- They are planted for harvest as sugar beets;
- Premium rates are provided;
- You have a share;
- They are grown under, and in accordance with, a processor contract for processing as sugar; and
- They meet rotation requirements.

### Counties Available

**Michigan** – Arenac, Bay, Clinton, Genesee, Gladwin, Gratiot, Huron, Isabella, Lapeer, Midland, Montcalm, Saginaw, Sanilac, Shiawassee, St. Clair, and Tuscola counties.

### Causes of Loss

You are protected against the following:

- Adverse weather;
- Earthquake;
- Failure of irrigation water supply;
- Fire;
- Plant disease and insects, unless you have insufficiently or improperly applied pest or disease control measures;
- Volcanic eruption; or
- Wildlife.

### Insurance Period

Coverage begins on the later of:

- The date we accept your application; or
- The date you plant the sugar beets.

Coverage ends at the earliest of:

- Total destruction of the crop;
- The date the crop should have been harvested;
- Abandonment of the crop;
- Final adjustment of a loss;
- The date the processor contract is fulfilled;
- The date harvest is completed; or
- November 15, 2018.

### Important Dates

Sales Closing ..... March 15, 2018  
 Final Planting ..... May 20, 2018  
 End of Late Planting Period ..... June 14, 2018  
 Acreage Report ..... July 15, 2018

### Reporting Requirements

You must report all of your sugar beet acreage, production, and any losses, when evident, to your insurance agent.

### Definitions

**First Stage Production Guarantee (per acre)** - The final stage production guarantee multiplied by 60 percent.

**Final Stage Production Guarantee (per acre)** - Your average approved yield per acre multiplied by the coverage level you chose. Yields are based on your actual production history (APH) records you reported to your insurance agent.

### Coverage Levels

Crop insurance premiums are subsidized as shown in the following table. For example, if you select the 75-percent coverage level, the premium subsidy is 55 percent and your premium share is 45 percent of the base premium.

Item	Percent							
Coverage Level	50	55	60	65	70	75	80	85
Premium Subsidy	67	64	64	59	59	55	48	38
Your Share	33	36	36	41	41	45	52	62

### Price Elections

A price election is the price you are paid per ton if you have a loss. This is based on the percentage of the established price you chose.

## Coverage Options

**Actual Production History (APH)** - You choose the amount of your average yield you wish to insure and the percent of the RMA established price. If your production falls below your insured yield, you are paid a loss.

**Catastrophic Coverage (CAT)**: Pays 50 percent of your average yield and 55 percent of the established price. CAT has no premium but does have a \$300 administrative fee per crop per county.

## Replanting and Prevented Planting

### Replant Provisions

You may receive a replant payment if:

- It is practical to replant;
- The appraisal does not exceed 90 percent of your final stage guarantee; and
- You replant at least 20 acres or 20 percent of the unit.

**Late Planting Period** - If you choose to plant after the final planting date, the insurance guarantee is reduced by one percent for each day after the final planting date. After 25 days, the guarantee is 45 percent.

**Prevented Planting** - You may receive a prevented planting payment if you are unable to plant on or before the final planting date because of an insurable cause.

## Loss Example

A loss occurs when crop production falls below the guaranteed tonnage amount. This example assumes 65-percent coverage level, a price election of \$48.25, and an average yield of 30 tons per acre with .667 share.

30	Tons APH yield
x 0.65	Coverage level
19.5	Tons per acre guarantee
x 100	Acres
1,950	Tons unit guarantee
- 1,500	Tons
450	Tons loss
x \$48.25	Price election
\$21,713	Loss payment
x .667	Share
<b>\$14,483</b>	<b>Final Payment</b>

Average percentage of sugar will be taken into account when computing harvested tons.

## Where to Buy Crop Insurance

You can buy a crop insurance policy from approved

participating insurance agents. A list of crop insurance agents is available at all USDA service centers and on the RMA web site at [www.rma.usda.gov/tools/agent.html](http://www.rma.usda.gov/tools/agent.html)
