2009 COMMODITY INSURANCE FACT SHEET

Soybeans

Colorado

Crop Insured

The crop insured will be all irrigated soybeans grown in the county on insurable acreage, for which premium rates are provided, in which you have a share, and planted for harvest as beans.

Counties Available

Soybeans are insurable in seven counties in Colorado: Baca, Bent, Kit Carson, Phillips, Prowers, Washington, and Yuma.

Coverage in other counties may also be available by individual written agreement if certain criteria are met, including records for at least three years of production history.

Causes of Loss

Adverse weather conditions¹
Earthquake
Failure of irrigation water supply²
Fire³
Insects⁴
Plant disease⁴
Volcanic eruption
Wildlife

¹Such as hail, freeze, excess wind, excess rain, drought, and tornado.

²If caused by an insured cause of loss within the insurance period.

³If due to natural causes.

⁴But not damage due to insufficient or improper application of pest or disease control measures.

Insurance Period

Insurance coverage begins on the later of the date we accept your application or the date when the soybeans are planted, and will end at the earliest of: (1) Total destruction of the crop, (2) harvest of the unit, (3) final adjustment of a loss, (4) December 10, 2009 or, (5) abandonment of the crop.

Important Dates

Sales Closing.....March 16, 2009
Final Planting Date¹.....June 15, 2009
Final Planting Date².....June 25, 2009
Acreage Report Date.....July 15, 2009
Premium Billing Date.....October 1, 2009
End of InsuranceDecember 10, 2009

¹Kit Carson, Phillips, Washington and Yuma counties in Colorado

²Baca, Bent, and Prowers counties in Colorado.

Reporting Requirements

Acreage Report—You must give a report of all your soybean acreage in the county by the acreage reporting date.

Coverage Levels and Premium Subsidies

Soybeans may be insured at the coverage levels shown in the table. Crop insurance premiums are subsidized as shown.

Item	Percent							
Coverage Level	50	55	60	65	70	75	80	85
Premium Subsidy	67	64	64	59	59	55	48	38
Your Premium Share	33	36	36	41	41	45	52	62

For example, if you select the 75-percent coverage level, your coverage will be 75 percent of your approved APH yield, the premium subsidy is 55 percent and your premium share is 45 percent of the base premium.

Catastrophic coverage (CAT) is available at 50 percent of your APH yield and 55 percent of the price election. The total cost for CAT coverage will be an administrative fee of \$300 per crop per county, regardless of the acreage. Administrative fees, in addition to premium costs, for coverage levels above CAT are \$30 per crop per county.

Price Elections (APH plan)

Price of compensation per bushel in case of loss:
Established price: \$9.90/bushel

Insurance Units

Basic Unit: A basic unit includes all of your insurable soybean acreage in the county by share arrangement. Premiums are reduced ten percent for a basic unit.

Optional Unit: If a basic unit consists of two or more sections of land, and certain record keeping requirements are met, you may apply for optional units by section. The 10-percent premium discount will not apply.

Enterprise Unit: Generally, all the insured crop acreage in a county. Premium discounts apply.

Whole Farm Unit: Generally all the insured crops in the county that are covered by the insurance plan. Premium discounts apply.

Plans of Insurance

Actual Production History (APH) — Production guarantee based on **individual** yield history. Optional and basic units are available.

Crop Revenue Coverage (CRC) — APH plus price protection with option, basic, and enterprise units.

Revenue Assurance (RA) — APH plus price protection with optional, basic, enterprise, and whole farm units.

Replant Provisions (not available under catastrophic coverage)

A replanting payment is allowed only if the crop is damaged by a covered cause of loss to the extent that the remaining stand will not produce at least 90 percent of your bushel guarantee and it is practical to replant. The maximum replanting payment will be the lesser of 20 percent of the bushel guarantee or three bushels, times your price election. No replanting payment will be made on acreage initially planted prior to the earliest planting date.

Late and Prevented Planting

These provisions provide protection on acreage that is planted after the final planting date or that cannot be planted. Not available for all plans of insurance. Please consult a crop insurance agent for details.

Loss Example

APH Example: A loss occurs when the bushels of soybeans produced for the unit fall below the production guarantee as a result of damage from a covered cause of loss. This example assumes a 40 bushels per acre APH yield, 75-percent coverage level, 100 percent of the established price, and basic unit coverage.

$$\begin{array}{rcl} 40 & \text{bushels per acre APH yield} & \\ \times .75 & \text{coverage level} & \\ \hline 30.0 & \text{bushel guarantee*} & \\ - 20.0 & \text{bushels per acre actually produced} & \\ \hline 10.0 & \text{bushels per acre loss} & \\ \times \$9.90 & \text{price election} & \\ \hline \$99.00 & \text{gross indemnity*} & \end{array}$$

Revenue Product Example:

$$\begin{array}{rcl} 40 & \text{bushels per acre APH yield} & \\ \times .75 & \text{coverage level} & \\ \hline 30.0 & \text{bushel guarantee} & \\ \times \$10.00 & \text{base price (est. announced in March)} & \\ \hline \$300.00 & \text{guarantee*} & \\ 20.0 & \text{bushels per acre actually produced} & \\ \times \$8.00 & \text{harvest price (est. announced in Dec.)} & \\ \hline \$160.00 & \text{revenue} & \\ \$140.00 & \text{gross indemnity* } (\$300.00 - \$160.00) & \end{array}$$

* Figures shown on a per acre basis; guarantees and losses paid are on a per acre unit basis. See policy provisions.
