

Soybeans

Colorado

Crop Insured

The crop insured will be all irrigated soybeans grown in the county on insurable acreage, for which premium rates are provided, in which you have a share, and planted for harvest as beans.

Counties Available

Soybeans are insurable in 7 counties in Colorado: Baca, Bent, Kit Carson, Phillips, Prowers, Washington, and Yuma.

Coverage in other counties may also be available by individual written agreement if certain criteria are met, including records for at least three years of production history.

Causes of Loss

Adverse weather conditions¹
Earthquake
Failure of irrigation water supply²
Fire³
Insects⁴
Plant disease⁴
Volcanic eruption
Wildlife

¹Such as hail, freeze, excess wind, excess rain, drought, and tornado.

²If caused by an insured cause of loss within the insurance period.

³If due to natural causes.

⁴But not damage due to insufficient or improper application of pest or disease control measures.

Insurance Period

Insurance coverage begins on the later of the date we accept your application or the date when the soybeans are planted, and will end at the earliest of: (1) Total destruction of the crop, (2) harvest of the unit, (3) final adjustment of a loss, (4) December 10, 2011 or, (5) abandonment of the crop.

Important Dates

Sales Closing.....	March 15, 2011
Earliest Planting Date.....	May 5, 2011
Final Planting Date ¹	June 15, 2011
Final Planting Date ²	June 25, 2011
Acreage Report Date.....	July 15, 2011
Premium Billing Date.....	October 1, 2011
End of Insurance	December 10, 2011

¹Kit Carson, Phillips, Washington and Yuma Counties in Colorado

²Baca, Bent, and Prowers Counties in Colorado.

Reporting Requirements

Acreage Report—You must give a report of all your soybean acreage in the county by the acreage reporting date.

Coverage Levels and Premium Subsidies

Soybeans may be insured at the coverage levels shown in the table. Crop insurance premiums are subsidized as shown. For example, if you select the 75-percent coverage level, your coverage will be 75 percent of your approved APH yield, the premium subsidy is 55 percent and your premium share is 45 percent of the base premium.

	Coverage Level	0.50	0.55	0.60	0.65	0.70	0.75	0.80	0.85
Subsidy Factors	Enterprise Unit	0.80	0.80	0.80	0.80	0.80	0.77	0.68	0.53
	Basic Unit	0.67	0.64	0.64	0.59	0.59	0.55	0.48	0.38
	Optional unit	0.67	0.64	0.64	0.59	0.59	0.55	0.48	0.38
	Whole Farm Unit ¹	0.80	0.80	0.80	0.80	0.80	0.80	0.71	0.56

¹Not available for Yield Protection Plan

Catastrophic Coverage

Catastrophic coverage (CAT) is available at 50 percent of your APH yield and 55 percent of the established price election. The total cost for CAT coverage will be an administrative fee of \$300 per crop per county, regardless of the acreage. Administrative fees, in addition to premium costs, for coverage levels above CAT are \$30 per crop per county. Available for Yield Protection Plan only.

Price Elections (APH plan)

Prices are calculated in accordance with the Commodity Exchange Price Provisions. Colorado soybeans prices are based on the November futures market price for soybeans. The projected price discovery period is February 1 through February 28. The harvest price discovery period is October 1 through October 31. Contact your agent or for more information see: <http://www.rma.usda.gov/tools/pricediscovery.html>

Insurance Units

Basic Unit: A basic unit includes all of your insurable corn acreage in the county by share arrangement.

Premiums are reduced 10 percent for a basic unit.

Optional Unit: If a basic unit consists of two or more sections of land, and certain record keeping requirements are met, you may apply for optional units by section. The 10-percent premium discount will not apply.

Enterprise Unit: Generally, all insured crop acreage in a county. Premium discounts apply.

Whole Farm Unit: Generally, all the insured crops in the county that are covered by the insurance plan. Premium discounts apply (Not available under the Yield Protection Plan).

Plans of Insurance

Yield Protection Plan is a plan of insurance that only provides protection against a production loss.

Revenue Protection Plan is plan of insurance that provides protection against loss of revenue due to a production loss, price decline or increase, or a combination of both.

Harvest price exclusion - Revenue protection with the use of the harvest price excluded when determining your revenue protection guarantee.

Replant Provisions (not available under catastrophic coverage)

A replanting payment is allowed only if the crop is damaged by a covered cause of loss to the extent that the remaining stand will not produce at least 90 percent of your bushel guarantee and it is practical to replant. The maximum replanting payment will be the lesser of 20 percent of the bushel guarantee or 3 bushels, times your price election. No replanting payment will be made on acreage initially planted prior to the earliest planting date.

Late and Prevented Planting

These provisions provide protection on acreage that is planted after the final planting date or that cannot be planted. Please consult a crop insurance agent for details.

Loss Example

Under yield protection a loss occurs when the bushels of soybeans produced for the unit fall below the production guarantee as a result of damage from a covered cause of loss. Under revenue protection a loss occurs when the value of production to count is less than the revenue protection guarantee due to a production loss and/or a loss of revenue. This example assumes a 40 bushel per acre APH yield, 75-percent coverage level, 100 percent of the price, a projected price of \$8.55, a harvest price of \$7.00, and basic unit coverage.

Yield Protection
