Director, Topeka RO

Subject: Aflatoxin in Corn—Salvage Markets

BACKGROUND

Weather conditions this year have made aflatoxin a threat to this year's corn crop in Colorado, Kansas, Missouri, and Nebraska. High levels of aflatoxin may result in either a discount in price or the requirement to destroy the grain altogether.

Because aflatoxin can worsen in storage, aflatoxin losses are only insurable if the grain is tested at an approved testing facility before being moved into commercial or on-farm storage, or if the policyholder has arranged with their insurance provider to leave representative sample areas of the unharvested crop from which the adjuster can obtain samples for aflatoxin testing.

Policyholders must notify their insurance provider before harvesting and/or placing harvested grain in storage if they suspect their grain contains aflatoxin. Losses attributed to increases in the aflatoxin level while in farm storage, or that cannot be determined because proper testing was not completed, are not covered under the crop insurance policy.

ACTION

Approved Insurance Provider's (AIP's) have requested a list of potential salvage markets for damaged grain. Below is a list of damaged grain buyers. This list is not complete and is provided as a guide to assist the AIP's in locating salvage markets.

Gavilon Grain, Wichita, KS, Attn: Neil Schwemmer, 800-733-8752

Diamond-O Feedyard, Butler, MO, Attn: Neale Oerky, 888-746-6885

Frontier Trading Company, Hutchinson, KS, 316-262-5393

Maks Bak, Ellis, KS & Wichita, KS, Attn: Don McElroy, 785-726-3503 or 316-640-3203

Northern AG Service, Kansas City, KS, 913-851-7200

Northwest MS Grain, LLC, Greenville, MS, Attn: Harlan Pruess, 662-902-8528
