The impact of high levels of aflatoxin varies from a discount in price to the requirements to destroy the grain.

If you think your insured crop has aflatoxin, contact your crop insurance agent before:
- You harvest the grain;
- You put the grain in storage; or
- You deliver it for sale.

Your insurance provider will:
- Take samples for testing; and
- Submit them to an approved aflatoxin testing facility.

Because aflatoxin can worsen in storage, aflatoxin losses are only insurable if:
- The grain is tested at an approved testing facility before being moved into commercial or on-farm storage; or
- Your insurance provider asks you to leave representative sample areas of the unharvested crop for taking samples for testing.

Losses not covered under the crop insurance policy include:
- Losses due to increases in the aflatoxin level while in farm storage; and
- Losses that cannot be determined because proper testing was not completed.

Refer to the applicable Special Provisions of Insurance for the most current policy on testing.

**Criteria for Approved Testing Facilities**

Testing facilities meeting the criteria below can be considered approved testing facilities for crop insurance.

- A certified facility must be able to perform quantitative tests on grain, itemizing results in parts per million (ppm) and parts per billion (ppb). Test kits used must be certified by the Grain Inspection, Packers and Stockyards Administration (GIPSA). Visit the GIPSA website for more information at [www.gipsa.usda.gov/default.aspx](http://www.gipsa.usda.gov/default.aspx).

- The facility must be a recognized commercial, government, or university testing lab that uses industry-recognized sample sizes, equipment, and procedures for testing aflatoxin.

- The facility must be a disinterested testing facility. The facility must not be involved in buying or selling the type of grain that is being tested.

**Approved Testing Facilities**

Following is a list of certified testing facilities for aflatoxin in Iowa, Minnesota, and Wisconsin. This is not a complete list and should only serve as a guide.

- **Central Iowa Grain Inspection Service, Inc.**
  P.O. Box 250
  317 S. Oak Street
  Iowa Falls, IA 50126
  (641) 648-3467
