

## St. Paul Regional Office — St. Paul, MN

Revised May 2017

# Dry Beans

## Wisconsin

### Crop Insured

You can insure dry beans if:

- They are grown on insurable acreage;
- Premium rates are provided;
- You have a share; and
- They are planted for harvest as dry beans.

### Counties Available

See counties available in the actuarial documents at [webapp.rma.usda.gov/apps/actuarialinformationbrowser2017/CropCriteria.aspx](http://webapp.rma.usda.gov/apps/actuarialinformationbrowser2017/CropCriteria.aspx).

The crop may be insurable in other counties by written agreement if specific criteria are met. Contact an insurance agent for more details.

### Causes of Loss

You are protected against the following:

- Adverse weather conditions such as hail, frost, freeze, wind, drought, and excess moisture;
- Failure of irrigation water supply, if caused by an insured cause of loss during the insurance period;
- Fire, if due to natural causes;
- Insects and plant disease, but not damage due to insufficient or improper application of pest or disease control measures; or
- Wildlife.

### Insurance Period

Insurance coverage begins on the later of:

- Date we accept your application; or
- Date when the dry beans are planted.

Insurance coverage ends at the earliest of:

- Total destruction of the crop;
- Harvest of the unit;
- Final adjustment of a loss;
- Abandonment of the crop; or
- October 31, 2017.

### Important Dates

Sales Closing/Cancellation ..... March 15, 2017  
Earliest Planting ..... April 26, 2017  
Final Planting ..... June 10, 2017  
Acreage Reporting ..... July 15, 2017  
Premium Billing ..... August 15, 2017  
Production Reporting ..... April 29, 2018

### Reporting Requirements

**Acreage Report** - You must report all of your dry bean acreage in the county by the acreage reporting date.

### Coverage Levels and Premium Subsidies

Crop insurance premiums are subsidized as shown in the following table. For example, if you select the 75-percent coverage level with an enterprise unit, the premium subsidy is 77 percent, and your premium share is 23 percent of the base premium.

Coverage Level (percent)		50	55	60	65	70	75	80	85
Subsidy Factor	Enterprise Unit	80	80	80	80	80	77	68	53
	Basic Unit	67	64	64	59	59	55	48	38
	Optional Unit	67	64	64	59	59	55	48	38

### Price Election

A price election is the price you are paid per pound if you have a loss. This is based on the percentage of established price you chose.

Dark Red Kidney ..... \$0.33 per pound  
Light Red Kidney ..... \$0.34 per pound

### Unit Division

**Basic Unit (BU)** - A basic unit includes all of your insurable dry bean acreage in the county by share arrangement. Premium discounts apply.

**Optional Unit (OU)** - If a basic unit consists of land in two or more sections, and certain recordkeeping requirements are met, you may apply for optional units by section.

**Enterprise Unit (EU)** - Generally, all the insured crop acreage in a county. Premium discounts apply.

## Plans of Insurance

**Actual Production History (APH)** - Your production guarantee is based on your yield history. You have a loss when your production falls below your production guarantee.

**Catastrophic Coverage (CAT)** - Covers 50 percent of your APH yield and 55 percent of the projected price.

## Endorsements and Options

**APH Yield Exclusion Option** - Allows you to exclude actual yields from your APH for select counties, and contiguous counties, in years that had an average county yield of at least 50 percent below the average county yield of the ten previous crop years. Available with CAT or buy-up policies.

## Replant Provisions

You may receive a replant payment if:

- It is practical to replant;
- The appraisal does not exceed 90 percent of your guarantee; and
- You replant at least 20 acres or 20 percent of the unit.

It will be considered practical to replant within or prior to the late planting period unless the insurance company determines otherwise. Replant payments are not available on acreage initially planted before the earliest planting date or on CAT policies.

## Late and Prevented Planting

**Late Planting Period** - If you plant after the final planting date, the insurance guarantee is reduced by one percent for each day after the final planting date. After 25 days, your prevented planting coverage will be 60 percent of your production guarantee for timely planted acreage. You may increase your prevented planting coverage for an additional premium to a level specified in the actuarial documents.

**Prevented Planting** - You may receive a prevented planting payment if you are unable to plant on or before the final planting date or within any applicable late planting period because of an insurable cause. Additional levels of prevented planting coverage are not available on CAT policies.

## Loss Example

This example assumes a 1,400 pounds per acre APH yield for Light Red Kidney type, 75-percent coverage level, 100 percent of the established price, and basic unit coverage.

1,400	Pounds per acre APH yield
x 0.75	Coverage level
1050	Pound guarantee
- 700	Actual pounds per acre produced
350	Pounds per acre loss
x \$0.34	Price election
\$119.00	Indemnity

Figures shown on a per acre basis. Guarantees and losses paid are on a unit basis. Your premium will be deducted from any indemnity payment. See policy provisions.

## Where to Buy Crop Insurance

All multi-peril crop insurance, including CAT policies, are available from private insurance agents. A list of crop insurance agents is available at all USDA service centers and on the RMA website at [www.rma.usda.gov/tools/agent.html](http://www.rma.usda.gov/tools/agent.html).
