Crop Insured
You can insure peppermint, native spearmint, and
scotch spearmint mint types if:
• It is grown on insurable acreage;
• You have a share;
• It is planted for harvest and distillation as mint oil;
• It has an adequate stand on the date coverage
begins; and
• It is inspected and accepted for the first crop year.

Counties Available
Mint is insurable in Dane, Jefferson, Marquette, and
Walworth Counties. It may be insurable in other
counties by written agreement if specific criteria are
met. Contact an insurance agent for more details.

Causes of Loss
You are protected against the following:
• Adverse weather conditions such as hail, frost,
freeze, wind, drought, and excess moisture;
• Failure of irrigation water supply, if caused by an
insured cause of loss during the insurance period.
• Fire, if due to natural causes;
• Plant disease and insects, but not damage due to
insufficient or improper application of pest or
disease control measures; or
• Wildlife.

Insurance Period
Insurance coverage begins on the later of:
• The date we accept your application; or
• October 1, 2018 for winter mint;
• June 16, 2019 for basic mint.
Insurance coverage ends at the earliest of:
• Total destruction of the crop;
• Harvest of the unit;
• Final adjustment of a loss;
• Abandonment of the crop;
• June 15, 2019 for winter mint; or
• September 30, 2019 for basic mint.

Important Dates
Sales Closing (Winter)………... September 30, 2018
Cancellation ………………….... September 30, 2018
Production Reporting………..November 14, 2018
Acreage Reporting (Winter)…. November 15, 2018
Sales Closing (Basic)……………. March 15, 2019
Acreage Reporting (Basic)…….. July 15, 2019
Premium Billing …………………... August 15, 2019

Reporting Requirements
Acreage Report - You must report all of your mint
acreage in the county by the acreage reporting date.

Definitions
Rotation Requirements - New mint acreage must not
have had mint grown on it the two previous crop
years.
Age Limitations - Insurance will not attach to any
acreage of peppermint or scotch spearmint the fourth
and succeeding crop years, and for native spearmint,
the ninth and succeeding crop years, after the crop
year of planting.
Minimum Adequate Stand Requirement - You
must have one and a half living mint plants per square
foot for all types and practices to be considered an
adequate stand.
Winter Coverage Option Adequate Stand
Requirement - For established stands, 75 percent or
more of ground cover is mint.

Coverage Levels and Premium Subsidies
Crop insurance premiums are subsidized as shown in
the following table. For example if you select the 75-
percent coverage level for a basic unit, the premium
subsidy is 55 percent, and your premium share is 45
percent of the base premium.

This fact sheet gives only a general overview of the crop insurance program and is not a complete policy. For further information and an
evaluation of your risk management needs, contact a crop insurance agent.
Price Election
A price election is the price you are paid per pound if you have a loss. This is based on the percentage of established price you chose.

Peppermint..........................$19.50 per pound
Peppermint Organic (Certified).....$21.50 per pound
Native Spearmint......................$17.00 per pound
Scotch Spearmint......................$17.00 per pound

Unit Division
Basic Unit (BU) - A basic unit includes all of your insurable mint acreage in the county by share arrangement. Premium discounts apply.
Optional Unit (OU) - If a basic unit consists of two or more sections of land, and certain recordkeeping requirements are met, you may apply for optional units by section.

Insurance Plans
Actual Production History (APH) - Your production guarantee is based on your yield history. You have a loss when your production falls below your production guarantee.
Catastrophic Coverage (CAT) - Covers 50 percent of your APH yield and 55 percent of the projected price.

Endorsements and Options
Winter Coverage Option - gives you a reduced guarantee of 60 percent of basic coverage guarantee. This option is not available with CAT coverage.
Yield Cup Option - Prevents your approved APH yield from decreasing by more than 10 percent from the prior year’s approved APH yield. A cup will apply to an APH database when your approved APH yield, calculated using other yield measures, is less than 90 percent of the prior year’s approved APH yield. It only applies to APH databases with at least one actual or assigned yield and is only available for carryover policies. Beginning with the 2019 crop year, this option is available for an additional premium and will automatically apply to your policy for the 2019 crop year, unless you cancel the option by the crop’s cancellation date. This option is continuous and remains in effect unless cancelled. Not available with CAT policies.

Late and Prevented Planting
Late and prevented planting are not available with this policy.

Loss Example
The examples assume an APH yield of 45 pounds of peppermint oil per acre, 70-percent coverage level, 100 percent of the established price, and basic unit coverage.

APH Basic Coverage Example
45  Pounds per acre APH yield
x 0.70  Coverage level
- 31.5  Pounds guarantee
- 25.0  Actual pounds harvested
x 6.5  Pounds per acre loss
x $19.50  Price election (peppermint)
$126.75  Indemnity

Winter Coverage Example
31.5  Pounds guarantee (see prior example)
x 0.60  Winter coverage level
18.9  Pounds guarantee
x $19.50  Price election (peppermint)
$368.55  Per acre payment on 30 acres
x 30.0  Acres of a 60 acre unit with no stand
$11,056.50  Indemnity

Figures shown on a per acre basis. Guarantees and losses paid are on a unit basis. Your premium will be deducted from any indemnity payment. See policy provisions.

Where to Buy Crop Insurance
All multi-peril crop insurance, including CAT policies, are available from private insurance agents. A list of crop insurance agents is available at all USDA service centers and on the RMA website at www.rma.usda.gov/tools/agent.html.
