February 2013

## 2013 COMMODITY INSURANCE FACT SHEET

# **Fresh Market Tomatoes**

## Virginia

## **Crop Insured**

Tomatoes transplanted and grown for harvest as **fresh market tomatoes** and subject to a packing contract executed by the acreage reporting date may be insurable.

Note: Cherry, grape, plum, and roma type tomatoes are insurable.

The policy **does not cover** any tomato acreage:

- Grown by anyone who has not grown fresh market tomatoes for commercial sales, or participated in the management of a fresh market tomato farming operation, in one of the three previous years;
- 2) Where tomatoes, peppers, eggplants, or tobacco have been grown within the previous two years unless the soil was fumigated or nematicide was applied before planting the tomatoes;
- 3) Grown for direct marketing;
- 4) Interplanted with another crop;
- 5) Planted into an established grass or legume; or
- 6) Directly seeded in the field.

#### **Counties Available**

Fresh market tomatoes are insurable in Accomack and Northampton Counties. Fresh market tomatoes may be insurable in other counties if specific criteria are met. Contact an agent for more details.

## **Causes of Loss**

Adverse weather conditions<sup>1</sup>
Failure of irrigation water supply<sup>2</sup>
Fire
Insects<sup>3</sup>
Plant disease<sup>3</sup>
Wildlife

Note: This policy does not cover damage that occurs or becomes evident after the tomatoes are harvested.

## **Insurance Period**

Coverage begins when the tomatoes are planted and ends at the earliest of:

- 1) Total destruction of the crop;
- 2) Discontinuance of harvest;
- 3) The date harvest should have started on acreage left unharvested;
- 4) 120 days after transplanting or replanting;
- 5) Completion of harvest;
- 6) Final adjustment of a claim; or
- 7) October 15.

#### **Reporting Requirements**

For each planting period; Fall and Spring plantings, you must report on or before the acreage reporting dates contained in the county actuarial documents. You must report to your agent the date the acreage was planted within each planting period.

#### **Important Dates**

Sales Closing Date	March 15, 2013
Acreage Reporting Date-Spring	May 15, 2013
Acreage Reporting Date-Fall	July 15, 2013

## **Duties in the Event of Damage or Loss**

- 1) Protect the crop from further damage by providing sufficient care;
- 2) Notify your agent within 72 hours of your initial discovery of damage; and
- 3) Leave representative samples intact for each field of the damaged unit.

## **Price Election**

State	Fresh Price
Virginia	\$6.80 per carton

<sup>&</sup>lt;sup>1</sup>Natural perils such as hail, freeze, frost, drought, wind, and excess precipitation.

<sup>&</sup>lt;sup>2</sup>If caused by an insured peril during the insurance period.

<sup>&</sup>lt;sup>3</sup>Except for insufficient or improper application of control measures.

## **Coverage Levels and Premium Subsidies**

Insurance is provided against a decline in your average APH yield due to the perils named in the Causes of Loss section. Coverage levels range from 50 to 75 percent of your average yield (for example, an average fresh market tomato yield of 531 cartons per acre would result in a guarantee of 345 cartons per acre at the 65 percent coverage level) and are subsidized as shown in the following table. For example, if you selected the 75 percent coverage level, your premium share would be 45 percent of the base premium.

Item	Percent					
Coverage Level	50	55	60	65	70	75
Premium Subsidy	67	64	64	59	59	55
Your Premium Share	33	36	36	41	41	45

Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of your average yield and 55 percent of the price election. The cost for CAT coverage is an administrative fee of \$300.

## **Stage Guarantees**

The production guarantee increases by stages at intervals until the full production guarantee is reached in the fourth stage. The stages and production guarantees are as follows:

Stage	Interval	Percent of Guarantee
1	From planting until qualifying for stage 2.	50
2	From earlier of stakes driven, one tie/pruning, or 30 days after planting, until qualifying for stage 3.	75
3	From earlier of the end of stage 2 or 60 days after planting, until qualifying for stage 4.	90
4	From the earlier of 75 days after planting or the beginning of harvest.	100

### **Production to Count**

Production on which you are not paid a claim for loss is called production-to-count. This includes appraised production, marketed production (regardless of grade), and any harvested but unmarketed production that grades 85 percent or better U.S. No. 1 with a classification size of 6 x 7 (2 8/32 inch minimum diameter) or larger.

## **Replanting Payment**

A replanting payment is allowed if your tomato crop is damaged by an insurable cause of loss and the acreage to be replanted has sustained a loss in excess of 50 percent of the plant stand. The maximum amount of the replanting payment per acre will be 70 cartons multiplied by your price election.

## **Loss Example**

This example is based on fresh market tomatoes with an approved yield of 1,366 cartons, 65 percent coverage level, irrigated mulch staked, and one basic unit.

1,366	Approved Yield per acre
<u>x .65</u>	Coverage level
888	Acre guaranteed
<u>- 200</u>	Production-to-Count
688	Loss per acre
x \$6.80	Price election
\$4,678	Indemnity per acre
<u>- \$170</u>	Estimated Premium
\$4,508	Indemnity/Acre
