Duties in the Event of Damage or Loss

Notice of Loss - If a loss occurs notify your crop insurance agent:

- Within 72 hours of initial discovery of damage;
- If you previously gave notice of crop damage, you must also provide notice at least 15 days before the beginning of harvest to claim an indemnity; or
- At least 3 days before the date harvest should have started if the crop will not be harvested.

Coverage Levels and Premium Subsidies

Coverage level options range from 50 to 85 percent of your average yield (5 percent increments) and are subsidized as shown in the table below.

Item	Percent							
	50	55	60	65	70	75	80	85
Coverage Level	50	55	60	65	70	75	80	85
Premium Subsidy	67	64	64	59	59	55	48	38
Your Premium Share	33	36	36	41	41	45	52	62

Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of your average yield and 55 percent of the price election. The cost for CAT coverage is an administrative fee of \$300.

Supplemental Coverage Option (SCO)

SCO is available for grapes in some counties. If elected, SCO provides additional coverage for a portion of your underlying crop insurance policy deductible.

Yield Exclusion (YE)

APH Yield Exclusion is available for grapes in some counties. YE allows you to exclude yields in exceptionally bad years from your production history when calculating yields used to establish crop insurance coverage.

Price Elections

Coverage levels and price election percentages may vary by grape type. The prices shown on page 2 are used to calculate premium and indemnity. The price used to determine your indemnity on unharvested acreage is the price election minus the harvest cost (\$35/ton).
