Crop Insured
All canola and rapeseed in the county are insurable if:
• You have a share in the crop;
• The crop is planted for harvest as seed;
• The crop is not interplanted with another crop (unless allowed by special provision or written agreement); and
• The crop is not planted into an established grass or legume.

Counties Available
Canola is insurable in Brunswick County. Canola may be insurable in other counties by written agreement if specific criteria are met. Contact a crop insurance agent for more details.

Causes of Loss
You are protected against the following:
• Adverse weather conditions, including natural perils such as hail, frost, freeze, wind, drought, and excess moisture;
• Failure of irrigation water supply, if caused by an insured peril during the insurance year;
• Fire, if caused by an insured peril during the insurance year;
• Harvest price decline below the projected price when revenue protection is in effect;
• Insect damage and plant disease, but not damage due to insufficient or improper application of control measures; or
• Wildlife.

Insurance Period
Coverage begins at the time of seeding and ends with the earliest occurrence of one of the following conditions:
• Total destruction of the crop;
• Harvest of the crop;
• Final adjustment of a loss;
• Abandonment of the crop; or
• October 31.

Important Dates
Sales Closing Date ....................... August 31, 2017

Price Elections
Commodity Exchange Price Provisions (CEPP) contain information necessary to develop the projected price and the harvest price for the insured crop. The CEPP includes the price discovery period, release dates, boards of trade used, and additional pricing information. Talk to your agent, or for more information go to www.rma.usda.gov/tools/pricediscovery.html.

Insurance Plans
Yield Protection - Insurance coverage only providing protection against a production loss.
Revenue Protection - Insurance coverage providing protection against revenue loss due to a production loss, price decline or increase, or a combination of both.
Revenue Protection with Harvest Price Exclusion - Insurance coverage providing protection only against revenue loss due to a production loss, price decline, or a combination of both.

Late and Prevented Planting
These provisions provide protection on eligible acreage that is planted late or that cannot be planted by the final planting date. Please talk to your agent for more details.

Loss Example
Assume an approved yield of 1,652 pounds per acre, 75-percent coverage level, 100-percent share, and a one acre basic unit. The projected price is $0.281 and the harvest price is $0.268. Due to insurable cause of loss, the production-to-count is 500 pounds.

For Revenue Protection, the insurance guarantee is equal to the production guarantee multiplied by the greater of the projected price or the harvest price.
