The price election, at which you are compensated in the event of a loss, is a choice of various percentages of the price established for the applicable crop year. Catastrophic (CAT) coverage is available at the 50-percent coverage level and 55 percent of the established price. Contact your crop insurance agent for specific details.

Loss Example

Assuming: 75-percent coverage level and a 10-percent price election (contract price of \$0.15 per pound) and an average yield of 700 pounds per acre (brown type, non-irrigated) actual production history (APH):

700	Pound per acre (APH)
x <u>75%</u>	Coverage level
525	Pound per acre guarantee
x <u>100.0</u>	Acres
52,500	Pound unit guarantee
x <u>\$ 0.15</u>	Price election
\$ 7,875	Guarantee value
21,000	Pounds harvested production
x <u>\$ 0.15</u>	Price coverage
\$ 3,150	Harvested value
\$7,875 - \$3,150 = \$4,725 loss indemnity due
