Revised October 2013

Apple

Idaho, Oregon, Washington

Crop Insured

All varieties of apples are insurable if:

- Adapted to the area;
- Located on insurable acreage, and for which premium rates are provided by an actuarial table;
- The acreage produced a minimum of 10 bins (250 boxes) per acre in at least 1 of the previous 4 years; and
- Inter-planted with another perennial crop, unless the insurance provider inspects the acreage and determines it does not meet the insurability requirements contained in the policy.

or improper application of disease control measures;

- Volcanic eruption;
- Wildlife; or
- All other natural losses that cannot be prevented.

Inability to market the apples for any reason other than actual physical damage from an insurable cause listed above is **not** insurable (an indemnity will not be paid if you are unable to market due to quarantine, boycott or refusal of any person to accept production).

 Acreage Report Date.....January 15, 2014

The dates shown above apply to all Idaho, Oregon and Washington counties where apple insurance is available.

Causes of Loss

- Adverse weather conditions;
- Earthquake;
- Failure of the irrigation water supply, if caused by an insured peril that occurs during the insurance period;
- Fire, unless weeds and other forms of undergrowth have not been controlled or unmulched pruning debris has not been removed from the orchard;
- Insects, but not damage due to insufficient or improper application of pest control measures;
- Plant disease, but not damage due to insufficient

Insurance Period

Coverage begins the later of:

- 20 days after the insurance provider accepts your application; or
- November 21.

For each crop year, after the first year, the policy remains continuously in force and insurance coverage begins on the day immediately following the end of the insurance period for the last crop year.

Insurance ends on:

November 5, for all apple varieties **except** Fuji.

November 10, for the Fuji variety only.

Reporting Requirements

Acreage Report - You must report to your insurance agent all acreage (insurable and non-insurable) by type of apples in the county in which you have a share.

Administrative Fees

Catastrophic Risk Protection (CAT) Coverage - \$300 per crop per county.

Additional Coverage - \$30 per crop per county. Waivers of administrative fees for **all** coverage levels (CAT and additional) are available for limited-resource farmers.

Production Guarantees

Yields are based on actual production records reported to your insurance agent and/or company. Contact your insurance agent for specific details.

Coverage Levels and Price Election

You can choose coverage levels of **50 to 75 percent** of your approved average yield (in 5-percent increments). The price election is the price of compensation paid, per box, in the event of a loss. CAT coverage is available at the 50-percent coverage level and 55 percent of the maximum price election. For current prices, please contact your insurance agent.

Loss Indemnity Example

Assume proven actual production history of 1,000 boxes per acre, 20 acres, and a 70-percent coverage level.

1,000	Boxes per acre
x 0.70	Coverage level
700	Boxes per acre guarantee
x 20	Acres
14,000	Box unit guarantee
x \$6.90	Dollars per box
\$96,600	Dollar coverage
8,000	Boxes harvested – grading at least U.S. No. 1 Processing
6,000	Production shortfall
x \$6.90	Dollars per box
\$41,400	Producer indemnity

Optional Coverage for Quality Adjustment

This option provides quality adjustment for fresh apple production-to-count that, due to insurable damage, does not grade 80 percent U.S. Fancy or better. Available on acreage designated as grown for fresh apples. Washington Fancy and Idaho Fancy grades are applicable in respective states instead of U.S. Fancy. Not available for policyholders who choose CAT.
