Insurance Period

Insurance attaches at the time of planting and ends on a unit or part of a unit with the earliest occurrence of one of the following conditions:

- 1) Total destruction of the crop;
- 2) Harvest of the crop;
- 3) Final adjustment of a loss on a unit;
- 4) October 31; or
- 5) Abandonment of the crop.

Yield and Revenue Insurance

One policy offers the choice of three plans.

Yield Protection – Insurance coverage only providing protection against a production loss.

Revenue Protection –Insurance coverage providing protection against loss of revenue due to a production loss, price decline or increase, or a combination of both.

Revenue Protection with Harvest Price Exclusion – Insurance coverage providing protection only against loss of revenue due to a production loss, price decline, or a combination of both.

Note: Rapeseed is eligible for options unique to the revenue plans (enterprise or whole farm units) but no price protection is provided.

Projected and Harvest Price

Commodity Exchange Price Provisions (CEPP)

Contains information necessary to set the projected price and the harvest price for the insured crop. Information includes the price discovery period, release dates, boards of trade used, and additional pricing information. Available at your insurance agent's office and at RMA's web site:

www.rma.usda.gov.

Projected Price – Used to calculate the premium, replant payment, and any prevented planting payment.

Harvest Price – Used to value production-to-count under the Revenue Protection and the Revenue Protection with Harvest Price Exclusion plans.

Production Guarantees

Yield Protection Guarantee – Determined by multiplying the production guarantee by the projected price. The harvest price is not used.

Revenue Protection Guarantee – Determined by multiplying the production guarantee (per acre) by the greater of the projected price or the harvest price.

Revenue Protection with Harvest Price Exclusion Guarantee – Determined by multiplying the production guarantee (per acre) by the projected price.

Guarantee Choices and Premium Subsidy

You can choose to insure 50 to 85 percent of your approved average yield, in 5-percent increments. For example, at the 75-percent coverage level, your premium would be 45 percent of the total premium. Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of the average yield and 55 percent of the projected price.

Additional Coverage Options

The common crop policy offers several different options you can choose from so you can have the right coverage for your farm. Additional options available with this policy are:

- Insurance units;
- Late and prevented planting; and
- Replant payments.

Please talk to your crop insurance agent for more information.

Item	Percent							
Coverage Level	50	55	60	65	70	75	80	85
Premium Subsidy	67	64	64	59	59	55	48	38
Insured Premium Share	33	36	36	41	41	45	52	62

Catastrophic Coverage

CAT is available at 50 percent of your actual production history (APH) yield and 55 percent of the established price election. The total cost for CAT coverage is an administrative fee of \$300 per crop per county. Administrative fees and premium costs for coverage levels above CAT are \$30 per crop per county. Waivers of administrative fees for **all** coverage levels (CAT and buy up) are available for limited resource farmers.

Where to Buy Crop Insurance

All multi-peril crop insurance, including CAT policies, are available from private insurance agents. A list of crop insurance agents is available at any USDA service center and on the RMA web site at:
