

Spokane Regional Office — Spokane, WA

2014 Crop Year Revised August 2013

Dry Pea with Winter Protection

Idaho, Washington

Crop Insured

All fall and spring type of dry peas with winter protection in the county are insurable if:

- You have a share; or
- planted for harvest as mature peas, Austrian peas, smooth green peas, yellow peas, or lentils.

Winter Coverage Endorsement

Additional coverage is available under this endorsement for dry peas damaged between the time coverage begins and the spring-type, final planting date. All eligible acreage of the crop must be insured.

Whenever any acreage of dry peas planted in the fall is damaged during the insurance period and at least 20 acres or 20 percent of the insured planted acreage in the unit, whichever is less, does not have an adequate stand to produce at least 90 percent of the production guarantee for the acreage, you may, at your option, take one of the following actions:

- Continue to care for the damaged dry peas. By doing so, coverage will continue under the terms of the basic provisions, these crop provisions and this option;
- Replant the acreage to an appropriate type of insured dry peas, if it is practical, and receive a replanting payment in accordance with the terms of section 11. By doing so, coverage will continue under the terms of the basic provisions, these crop provisions and this option, and the production guarantee for the dry pea type planted in the fall will remain in effect; or
- Destroy the remaining peas and accept the appraised amount of production.

Counties Where Available

Idaho - Benewah, Clearwater, Idaho, Latah, Lewis, and Nez Perce counties.

Washington - Asotin, Douglas, Lincoln and Whitman counties.

Winter coverage for dry peas can be provided by written agreement for producers farming in counties other than those listed. Submit requests through your insurance agent to the Spokane Regional Office by September 30.

	(includes fall types)
Acreage Reporting D	ateJuly 15, 2014
(insured under the Winter Coverage Endorsement;	
Fall Type not covered by the Winter Coverage;	
and Endorsement and Spring Type)	

The above dates apply only to policyholders choosing the winter coverage endorsement for dry peas. Contact your insurance agent for specifics related to your county.

Insurance Period

According to the provisions of section 11 of the basic provisions, and subject to the provisions provided by the winter coverage option (see section 15) if you choose this option, the insurance period is:

- Coverage for fall-planted, dry peas not covered by the winter coverage option will begin on the earlier of April 15 or the date we agree to accept the acreage for insurance, but not before March 1, unless otherwise specified on the special provisions.
- The calendar date for the end of the insurance period for all insurable types of dry peas in the county is September 30 of the crop year in which the crop is normally harvested unless otherwise specified in the special provisions.

Definitions

Dry Peas -

- Peas (*Pisum sativum* L.);
- Austrian Peas (*Pisum sativum spp arvense*);
- Lentils (*Lens culinaris* Medik.);
- Chickpeas (*Cicer arietinum* L.); and
- Other types as listed in the special provisions.

Contract Seed Peas - Peas (*Pisum sativum* L.) grown under the terms of a processor/seed company contract for the purpose of producing seed to be used in planting a future year's crop.

Price Election - In addition to the provisions of the definition contained in the basic provisions, the price election for contract seed peas will be the percentage you choose (not to exceed 100 percent) of the base contract price.

Processor and seed company contract - A written agreement between the producer, processor, and seed company, executed by the acreage reporting date, containing at a minimum:

- The producer's promise to plant and grow one or more specific varieties of contract seed peas, and deliver the production from those varieties to the processor/seed company;
- The processor/seed company's promise to buy all the production stated in the contract; and
- A fixed price, or a method to determine such price based on published information compiled by a third party, that will be paid to the producer for at least 50 percent of the production stated in the contract.

Catastrophic Coverage

Winter coverage is not available with Catastrophic Risk Protection (CAT) coverage for dry peas.

Optional Units

Additional optional units may be established under this endorsement if each optional unit contains only initially-planted, fall peas or only initially-planted, spring peas.

Where to Buy Crop Insurance

All multi-peril crop insurance, including CAT policies, are available from private insurance agents. A list of crop insurance agents is available at any USDA Service Center or on the RMA web site: www3.rma.usda.gov/tools/agents/
