Crop Insured
All field corn planted for harvest as grain or silage type(s) may be insurable in your county. Contact your crop insurance agent for specific details.

Counties Available
Oregon - Baker, Benton, Clackamas, Columbia, Coos, Douglas, Jackson, Josephine, Lane, Linn, Malheur, Marion, Morrow, Multnomah, Polk, Umatilla, Washington, and Yamhill counties.

Causes of Loss
You are protected against the following:
- Adverse weather conditions;
- Earthquake;
- Failure of the irrigation water supply due to an insured cause of loss;
- Fire;
- Insects, but not damage due to insufficient or improper application of pest control measures;
- Plant disease, but not damage due to insufficient or improper application of disease control measures;
- When revenue protection is in effect, a decline in the harvest price below the projected price;
- Volcanic eruption; or
- Wildlife.

Insurance Period
Coverage begins at the time of planting and ends with the earliest occurrence of one of the following:
- Total destruction of the crop;
- Combining, or picking corn for grain or severing the stalk from the land and chopping for the purpose of livestock feed;
- Final adjustment of a loss;
- October 20 for corn insured as silage in all Idaho, Oregon, and Washington counties;
- October 31 for corn insured as grain in Clallam, Grays Harbor, Jefferson, King, Kitsap, Pierce, Snohomish, and Thurston counties in Washington; or
- December 10 for corn insured as grain in all other Idaho, Oregon, and Washington counties.

Important Dates
Sales Closing ……………………… March 15, 2018
Final Planting Date ………….. See County Actuarial Acreage Report Date ………………… July 15, 2018

Reporting Requirements
Acreage Report - You must report to your crop insurance agent all of the acreage in which you have a share (your share at the time insurance begins), reporting the crop by type and practice.

Coverage Options
One policy provides the choice of three plans.
Yield Protection - Insurance coverage only providing protection against a production loss.
Revenue Protection - Insurance coverage providing protection against loss of revenue due to a production loss, price decline or increase, or a combination of both.

This fact sheet gives only a general overview of the crop insurance program and is not a complete policy. For further information and an evaluation of your risk management needs, contact a crop insurance agent.
Revenue Protection with Harvest Price Exclusion -
Insurance coverage providing protection only against
loss of revenue due to a production loss, price decline,
or a combination of both.

Projected and Harvest Price
The Commodity Exchange Price Provisions (CEPP)
contain information necessary to derive the projected
price and the harvest price for the insured crop, as
applicable. Information includes the price discovery
period, release dates, boards of trade used, and
additional pricing information available at crop
insurance agent offices and the RMA website at
www.rma.usda.gov. The projected price is used to
calculate the premium, replant payment, and any
prevented planting payment. The harvest price is used
to value production-to-count under the Revenue
Protection and the Revenue Protection with Harvest
Price Exclusion insurance plans.

Production Guarantees
Yield Protection Guarantee - Determined by
multiplying the production guarantee by the projected
price. The harvest price is not used.
Revenue Protection Guarantee - Determined by
multiplying the production guarantee (per acre) by the
greater of the projected price or the harvest price.
Revenue Protection with Harvest Price Exclusion
Guarantee - Determined by multiplying the
production guarantee (per acre) by the projected price.

Guarantee Choices and Premium Subsidy
Choice of 50 to 85 percent of the approved average
yield in 5-percent increments. For example, at the 75-
percent coverage level, the farmer paid premium
would be 45 percent of the total premium.

<table>
<thead>

<tr>
<td>Insured Premium Share</td>
<td>33</td>
</tr>
</tbody>
</table>

Prevented Planting
Your prevented planting coverage is 55 percent of
your production guarantee for timely planted acreage.
If you have limited or additional levels of coverage
and pay an additional premium, you may increase
your prevented planting coverage to a level specified
in the actuarial documents.

Administrative Fees
CAT coverage is $300 per crop per county.
Additional coverage is $30 per crop per county.

Loss Example
Assume 100-percent share, 70-percent coverage level,
100-percent price of $3.86, and an average yield of
150 bushels per acre.

\[
\begin{align*}
150 & \text{ Bushel per acre (actual production history)} \\
\times 0.70 & \text{ Coverage level} \\
105 & \text{ Bushel per acre guarantee} \\
\times 100 & \text{ Acres} \\
10,500 & \text{ Bushel unit guarantee} \\
- 5,500 & \text{ Bushel production} \\
5,000 & \text{ Bushel loss} \\
\times 3.86 & \text{ Price} \\
$19,300 & \text{ Indemnity due policyholder}
\end{align*}
\]

Where to Buy Crop Insurance
All insurance policies, including CAT policies, are
available from private crop insurance agents. A list of
crop insurance agents is available at any USDA
service center or on the RMA website at

Regional Contact
USDA/Risk Management Agency
Spokane Regional Office
11707 E Sprague Ave. #201
Spokane Valley, WA 99206
Telephone: (509) 228-6320
Fax: (509) 228-6321
Email: rsowa@rma.usda.gov

Catastrophic Risk Protection (CAT) coverage is fixed
at 50 percent of the average yield and 55 percent of
the projected price.
