PEA LOSS ADJUSTMENT STANDARDS HANDBOOK

2012 and Succeeding Crop Years

**UNITED STATES DEPARTMENT OF AGRICULTURE
WASHINGTON, D.C. 20250**

TITLE: PEA LOSS ADJUSTMENT STANDARDS HANDBOOK	NUMBER: 25300 (01-2011) 25300-1 (12-2011)
EFFECTIVE DATE: 2012 and Succeeding Crop Years	ISSUE DATE: December 1, 2011
SUBJECT: Provides the procedures and instructions for administering the Pea crop insurance program	OPI: Product Administration and Standards Division
	APPROVED: December 1, 2011 /s/ Tim B. Witt Deputy Administrator for Product Management

REASONS FOR AMENDMENT

Major changes: See changes or additions in text which have been **highlighted**. Three stars (***) identify information that has been removed.

1. Section 3E, page 5: Inserted reminder that grades for quality adjustment should be done on dockage free samples, or show what the grade would have been with dockage removed.
2. Section 8B, page 13: Removed language mandating separate appraisal for each field or subfield. Only those with a differing APH, type, or practice need separate appraisals.
3. Section 8C Item 19, page 15: Changed language from “4 or more rows” to “three or more row spaces” to be consistent with language in Section 5C.
4. Section 8C Item 23, page 15: Corrected references to other Item numbers in Section 8C.
5. Section 8C Item 31, page 16: Added whether a field is irrigated or non-irrigated to the list of items that can be added to the “Remarks” section of the appraisal worksheet.
6. Section 9C Section I heading, Number 4, page 27: Deleted “moisture” as a possible quality adjustment. The Dry Pea policy does not allow quality adjustment for moisture.
7. Section 9C Item 32, page 32: Added title to this item.
8. Section 9C Item 35, page 32: Added quality language on how to handle worksheet completion if due to insured causes, a Federal or State agency has ordered the appraised insured crop or production to be destroyed to comply with 15 (j) of the Basic Provisions.
9. Section 9C, Narrative Item u, page 36: Corrected reference from item 59b to item 35. Also added quality language on how to handle worksheet completion if due to insured causes, a Federal or State agency has ordered the appraised insured crop or production to be destroyed to comply with 15 (j) of the Basic Provisions.

PEA LOSS ADJUSTMENT STANDARDS HANDBOOK

REASONS FOR AMENDMENT (Continued)

10. Section 9C Section II General Information number 7c, page 37: Deleted “moisture” as a possible quality adjustment. The Dry Pea policy does not allow quality adjustment for moisture.
11. Section 9C Item 56, page 40: Deleted “moisture” as a possible quality adjustment. The Dry Pea policy does not allow quality adjustment for moisture.
12. Section 9C Item 65, page 43: Added quality language on how to handle worksheet completion if due to insured causes, a Federal or State agency has ordered the appraised insured crop or production to be destroyed to comply with 15 (j) of the Basic Provisions.
13. Production Worksheet Example, page 48: Corrected figures in Items 31, 34, 36, 38, and 42.
14. Exhibit 1, page 52: Updated example grade certificate to reflect new certificate format and the language added to section 3E on page 5.

PEA LOSS ADJUSTMENT STANDARDS HANDBOOK

(RESERVED)

B. PROVISIONS AND PROCEDURES NOT APPLICABLE TO CAT COVERAGE

Refer to the CIH and LAM for provisions and procedures not applicable to CAT.

C. GUIDELINES RELATIVE TO “BYPASSED” GREEN PEA ACREAGE

Refer to the LAM for guidelines relative to “Bypassed Acreage.”

D. UNIT DIVISION

Refer to the insurance contract for unit provisions. Unless limited by the CP or SP, a basic unit, as defined in the BP, may be divided into optional units if, for each optional unit, all the conditions stated in the applicable provisions are met.

E. QUALITY ADJUSTMENT

Mature Dry Peas production that does not qualify as contract seed peas under the policy terms (e.g., size, germination, percentage) contained in the processor/seed company contract may be adjusted for quality deficiencies.

Reminder: When delivering samples to authorized graders, note on the request form, “Samples Submitted for Crop Insurance Purposes.” U.S. Grades for Dry Peas are representative of product that has had dockage removed. For other than crop insurance purposes, Grade determinations are not routinely performed on field run dry pea material. For field run samples, the “Remarks” section of the Grade Certificate should state what the field run sample would have graded after the removal of dockage. If it does not, the sample will need to be resubmitted, placing an emphasis on “after the removal of dockage.”

- (1) Production will be eligible for quality adjustment in accordance with the following, unless otherwise specified in the SP:
 - (a) Deficiencies in quality, in accordance with the United States Standards for Whole Dry Peas, Split Peas, and Lentils, result in production grading U.S. No. 2 or worse because of defects, color, skinned production (lentils only), odor, material weathering, or distinctly low quality; or
 - (b) Substances or conditions are present that are identified by the Food and Drug Administration or other public health organizations of the United States as being injurious to human or animal health.
- (2) Dry Pea production qualifying for quality adjustment, will be adjusted by:
 - (a) Dividing the value per pound of such damaged dry pea production by the local market price per pound for the same variety of undamaged dry pea production grading U.S. No. 1; and
 - (b) Multiplying the result by the number of pounds of such dry pea production. The applicable price for U.S. No. 1 dry pea production will be the local market price on the earlier of the day the loss is adjusted or the day the damaged dry pea production was sold.

- (3) If a local market cannot be found for the dry pea production, refer to the LAM.
- (4) The quality adjustment factor cannot be greater than 1.000, or less than 0.000 (zero). Refer to the LAM regarding speculative-type contracts in regard to quality adjustment.
- (5) Document quality adjustment information as described in the instructions for the “Narrative” section of the Production Worksheet (section 9 C), or on a Special Report.
- (6) For additional quality adjustment definitions, instructions, qualifications, and testing requirements; refer to the LAM and the Official United States Standards for Whole Dry Peas, Split Peas, and Lentils.
- (7) Refer to the LAM for special instructions regarding mycotoxin infected dry pea production.
- (8) No quality adjustment is allowed on any acreage of green peas that consent is given to harvest as dry peas. The harvested or appraised dry pea production will be multiplied by 1.667 for shell types and 3.000 for pod types to determine the green pea production equivalent.
- (9) For chickpea types, deficiencies in quality will be in accordance with the United States Standards for Dry Beans that result in production grading U.S. No. 2 or worse because of defects, color, odor, material weathering, or distinctly low quality. For the Chickpea types, grades of dry beans shall be referenced instead of dry peas.

F. DRY PEA WINTER COVERAGE OPTION (WCO)

- (1) The WCO is available only in counties for which the SP designate both a fall final planting and a spring final planting date.
- (2) Whenever any acreage of dry peas planted in the fall is damaged during the insurance period and at least 20 acres or 20 percent of the insured planted acreage in the unit, whichever is less, does not have an adequate stand to produce at least 90 percent of the production guarantee for the acreage, the insured may, at his/her option, take one of the following actions:
 - (a) Continue to care for the damaged dry peas. By doing so, coverage will continue under the terms of the BP, these CP and this option;
 - (b) Replant the acreage to an appropriate type of insured dry peas, if it is practical, and receive a replanting payment. By doing so, coverage will continue under the terms of the BP, these CP and this option, and the production guarantee for the dry pea type planted in the fall will remain in effect; or
 - (c) Destroy the remaining dry peas on such acreage:
 - 1 By destroying the remaining dry peas, the insured agrees to accept an appraised amount of production to count against the unit production guarantee. This amount will be considered production to count in determining any final indemnity on the unit and will be used to settle the insured’s claim.

- (3) The Privacy Act and Non-Discrimination Statements are required statements that must be printed on the form or provided to the insured as a separate document. These statements are not shown on the example form in this section. The current Non-Discrimination Statement and Privacy Act Statement can be found on the RMA website at <http://www.rma.usda.gov/regs/required.html> or successor website.
- (4) Refer to the DSSH for other crop insurance form requirements (e.g., font point size, etc.).

B. GENERAL INFORMATION FOR WORKSHEET ENTRIES AND COMPLETION PROCEDURES

- (1) Include the AIP name in the appraisal worksheet title if not preprinted on the AIP's worksheet, when a worksheet entry is not provided.
- (2) Include the claim number on the appraisal worksheet (when required by the AIP), when a worksheet entry is not provided.
- *** (3) Separate appraisal worksheets must be completed for each unit appraised, and for each field or subfield with a differing base (APH) yield, type, or farming practice (applicable to replant, preliminary, and final claims). Refer to **section 5B** for sampling requirements.
- (4) For every inspection, complete items 1 through 5 and items 31 through 33. Complete Part I and II as instructed below.
- (5) Standard appraisal worksheet items are numbered consecutively in subsection 8C below. Instructions are also provided on how to complete all worksheet entries, except the last three items on the appraisal worksheet.
- (6) For all zero appraisals, refer to the LAM.

C. WORKSHEET ENTRIES AND COMPLETION INFORMATION

Verify or make the following entries:

**Item
No.**

Information Required

Company: Name of the AIP, if not preprinted on the worksheet (Company Name).

Claim No.: Claim number assigned by the AIP.

1. **Insured's Name:** Name of the insured that identifies EXACTLY the person (legal entity) to whom the policy is issued.
2. **Contract No.:** Insured's assigned policy number.
3. **Unit No.:** Unit number from the Summary of Coverage after it is verified to be correct.

4. **Crop:** Make the following entries, as applicable.
 - a. **Dry Peas:** Enter “Dry Peas” and the name of the type and variety; e.g., “Spring Smooth Green/Columbian.”
 - b. **Lentils:** Enter “Dry Peas” and the name of the type and variety below the “Dry Peas;” e.g., “Spring Lentils/Chilean.”
 - c. **Chickpeas:** Enter “Dry Peas” and the name of the type and variety below the “Dry Peas;” e.g., “Large Kabuli Chickpea/Dwelly.”
 - d. **Green Peas:** Enter “Green Peas” and the name of the type and variety below the “Green Peas;” e.g., “Shell/Allsweet.”
5. **Crop Year:** Four-digit crop year, as defined in the policy, for which the claim has been filed.

PART I - BEFORE PODDING

6. **Field ID and Acres:** Field identification symbol and number of determined acres, to tenths, in the field or subfield being appraised.
7. **Row Space:** Measure across three or more row spaces, and enter average row width in whole inches. Refer to subsection 5 C and **TABLE B** herein, for row-length sample requirements.
8. **No. Plants:** Number of live plants per 10 foot sample row from which a normal yield can be expected under favorable growing conditions. If the sample contains damaged plants, convert the number of damaged plants to a comparable number of plants from which a normal yield can be expected (e.g., three damaged plants may be equivalent to one undamaged plant).
9. **Total Plants:** Total number of live plants from all samples in item 8 above.
10. **No. Samples:** Enter the total number of samples taken (refer to **TABLE A** herein for minimum sample requirements).
11. **Avg. No. Plants:** Item 9 divided by item 10, round results to tenths.
12. **Sq. Ft. Factor:** Square foot factor for the row width (refer to **TABLE B** herein).
13. **Avg. Plants per Sq. Ft.:** Item 11 divided by item 12, results rounded to tenths.
14. **Peas per Plant Factor:**
Dry Peas, Lentils, and Green Peas (Shell Type) - Peas per Plant Factor (average number of peas per plant) for the variety being appraised (refer to **TABLE C** herein).

Green Peas (Pod Type) - Pods per Plant Factor (average number of pods per plant) for the variety being appraised (refer to **TABLE C** herein).

15. **Peas per Sq. Ft.:** Item 13 multiplied by item 14, results rounded to tenths.
16. **Yield Factor:** Yield factor for the variety being appraised (refer to **TABLE C** herein). If appraising fall planted acreage for coverage in a county offering only a spring planted type, increase the factor by 1.15.
17. **Pounds per Acre Appr.:** Item 15 divided by item 16, results rounded to whole pounds.

PART II - AFTER PODDING

18. **Field ID and Acres:** Field identification symbol and number of determined acres, to tenths, in the field or subfield being appraised.
19. **Row Space:** Measure across **three** or more row **spaces**, and enter average row width in whole inches (refer to subsection 5 C herein).
20. **Plants per Sample Row:** Number of live plants per 10 feet of row.
21. **Average Pods per Plant:** Average number of pods per plant from FIVE or more representative plants from each sample, rounded to tenths (refer to subsection 6 C herein.)
22. **Average Peas per Pod:**
 - a. **Dry Peas, Green Peas** (Shell Type, or for unharvested acreage if consent was given to harvest green peas as dry peas): Average number of peas per pod on plants used in item 21, rounded to tenths.
 - b. **Green Peas (Pod Type):** MAKE NO ENTRY.
23. **Sample Totals:**
 - a. **Dry Peas and Green Peas** (Shell Type, or for unharvested acreage if consent was given to harvest green peas as dry peas): Item **20** multiplied by item **21**, multiplied by item **22**, results rounded to tenths after the final calculation.
 - b. **Green Peas (Pod Type):** Item 20 multiplied by item 21, for each sample. Round to tenths after the final calculation.
24. **Total All Samples:** Total of all entries in item 23.
25. **No. Samples:** Enter the number of samples taken.
26. **Total Avg. Peas per Sample:** Item 24 divided by item 25 results rounded to tenths.
27. **Sq. Ft. Factor:** Square foot factor for the row width (refer to **TABLE B** herein).

28. **Peas per Sq. Ft.:** Item 26 divided by item 27, results rounded to tenths.
29. **Yield Factor:** Yield factor for the variety (refer to **TABLE C** herein).
30. **Pounds per Acre Appr.:** Item 28 divided by item 29, results rounded to whole pounds.
31. **Remarks:** List any information pertinent to the appraisal (e.g., appraisal date, uninsured causes of damage, contract seed, irrigated or non-irrigated, etc.). If a Special Report is used, so indicate.

The following required entries are not illustrated on the Appraisal Worksheet example below.

32. **Insured Signature and Date:** Insured's or insured's authorized representative's signature and date. BEFORE obtaining the signature, REVIEW ALL ENTRIES on the Appraisal Worksheet WITH THE INSURED or insured's authorized representative, particularly explaining codes, etc., which may not be readily understood.
33. **Adjuster's Code No., Signature, and Date:** Signature of adjuster, code number, and date signed **after** the insured or insured's authorized representative has signed. If the appraisal is performed prior to signature date, document the date of appraisal in the Remarks section of the Appraisal Worksheet; otherwise, document the appraisal date in the Narrative of the Production Worksheet.

Page Number: Page numbers - (Example: Page 1 of 1, Page 1 of 2, Page 2 of 2, etc.).

15. **Companion Policies:**

- a. If no other person has a share in the unit (insured has 100 percent share), MAKE NO ENTRY.
- b. In all cases where the insured has LESS than a 100 percent share of a loss-affected unit, ask the insured if the OTHER person sharing in the unit has a multiple-peril crop insurance contract (i.e., not crop-hail, fire, etc.). If the other person does not, enter “NONE.” Refer to the LAM for further information regarding companion contracts.
 - (1) If the other person has a multiple-peril crop insurance contract and it can be determined that the SAME AIP services it, enter the contract number. Handle these companion policies according to AIP instructions.
 - (2) If the OTHER person has a multiple-peril crop insurance contract and a DIFFERENT AIP or agent services it, enter the name of the AIP and/or agent (and contract number) if known.
 - (3) If unable to verify the existence of a companion contract, enter “Unknown” and contact the AIP for further instructions.
 - (4) Refer to the LAM for further information regarding companion contracts.

SECTION I – DETERMINED ACREAGE APPRAISED, PRODUCTION AND ADJUSTMENTS

Make separate line entries for varying:

- (1) Rate classes, classes, sub-class, intended use, irrigated practice, cropping practice, or organic practices, as applicable;
- (2) APH yields;
- (3) Appraisals;
- (4) Adjustments to appraised mature production (quality adjustment factors);
- (5) Stages or intended use(s) of acreage;
- (6) Shares (e.g., 50 percent and 75 percent shares on the same unit); or
- (7) Appraisals for damage due to hail or fire if Hail and Fire Exclusion is in effect.

16. **Field ID:** The field identification symbol from a sketch map or an aerial photo. Refer to the “Narrative.” Where acreage is PARTLY replanted, omit the field ID symbol for the fields that have not been replanted and that have been consolidated into a single line entry.

17. **Multi-Crop Code:**

REPLANT: MAKE NO ENTRY.

PRELIMINARY AND FINAL: The applicable two-digit code for first crop and second crop. Refer to the LAM for instructions regarding entries of first crop and second crop codes.

18. **Reported Acres:** In the event of over-reported acres, handle in accordance with the individual AIP's instructions. In the event of under-reported acres, enter the reported acres to tenths for the field or subfield. If there are no under-reported acres, MAKE NO ENTRY.
19. **Determined Acres:** Refer to the LAM for definition of acceptable determined acres used herein. Enter the determined acres to tenths for the field or subfield for which consent is given for other use and/or:
- Put to other use without consent.
 - Abandoned.
 - Damaged by uninsured causes.
 - For which the insured failed to provide acceptable records of production.

Refer to the LAM for procedures regarding when estimated acres are allowed and documentation requirements.

REPLANT: Determine the total acres, to tenths, of replanted acreage (DO NOT ESTIMATE). Make a separate line entry for any part of a field not replanted.

- Determine the planted acreage of any fields not replanted. Consolidate it into a single line entry unless the usual reasons for separate line entries apply. Record the field identities (from a map or aerial photo) in the Narrative.
- Account for all planted acres in the unit.

FINAL: Determined acres to tenths.

Acreage breakdowns within a unit may be estimated (enter "E" in front of the acres) if a determination is impractical and if authorization was received from the AIP. Document authorization in the Narrative.

Account for all acreage in the unit. In the event of over-reported acres, handle in accordance with individual AIP's instructions.

20. **Interest or Share:** Insured's interest in the crop to three decimal places as determined at the time of inspection. If shares vary on the same UNIT, use separate line entries.
21. **Risk:** Three-digit code for the correct "Rate Class" specified on the actuarial documents. If a "Rate Class" or "High Risk Area" is not specified on the actuarial documents, MAKE NO ENTRY. Verify with the Summary of Coverage and if the rate class is found to be incorrect, revise according to the AIP's instructions. Refer to the LAM. Unrated land is uninsurable without a written agreement.
22. **Type:** Three-digit code number, entered exactly as specified on the actuarial documents for the type or variety grown by the insured. If "No Type Specified" or "No Variety Specified" is shown on the actuarial documents, enter the appropriate three-digit code number from the actuarial documents (e.g., 997). If a type or variety is not specified on the actuarial documents, MAKE NO ENTRY.

31. **Appraised Potential:** Make the following entries in whole pounds.

REPLANT: Pounds per acre of peas allowed for replant. Document replant calculations in the Narrative.

PRELIMINARY AND FINAL: Per-acre appraisal of POTENTIAL production for the acreage appraised as shown in items 17 or 30 on the appraisal worksheet. Refer to Section 6 herein for additional instructions. If there is no potential on UH acreage, enter "0" (zero).

GREEN PEAS:

- a. For unharvested green pea acreage that is bypassed by the processor due to INSURED causes of loss; enter "0" (zero) on the Production Worksheet. Consistent with the Production Worksheet, no production to count will be used for APH purposes. (Refer to subsection 3 C herein.)
- b. For unharvested green pea acreage, and/or acreage that is bypassed when NO insured cause of loss prevented the processor from timely harvesting, the potential production must be appraised and counted as production against the guarantee and for APH purposes. (Refer to subsection 3 C herein.)
- c. For green pea acreage that consent has been given to harvest as dry peas, and the acreage remains unharvested, appraised production will be on a dry pea basis, and converted to the green pea equivalent. (Refer to section 6 herein.)

CONTRACT SEED PEAS - Enter the production as clean seed equivalent, as follows:

- a. For IMMATURE appraised production:
 - (1) Multiply gross pounds per acre of IMMATURE appraised production, by the seed company's historical average grade out percentage for the variety to calculate the determined pounds of clean seed production. The remaining appraised production is the determined pounds of not-clean seed production.
 - (2) Convert the determined pounds of production which is not clean seed to clean seed equivalent by multiplying the pounds of such seed by a factor obtained by dividing the local market price (on date of appraisal) of such peas, by the contract price. Add the resulting pounds to the determined pounds of clean seed to obtain the determined pounds of clean seed equivalent.

EXAMPLE: IMMATURE APPRAISED PRODUCTION

2000 lbs./acre appraisal
x .80 seed company's historical grade-out percentage
1600 pounds of clean seed equivalent

2000 lbs. – 1600 lbs. clean seed = 400 lbs. NOT clean seed
.1500 (local market price/lb not clean seed) divided by .3000 (value per lb. of clean seed) =
.500 factor
400 lbs./acre not clean seed X .500 = 200 lbs./acre clean seed equivalent

1600 lbs + 200 lbs = **1800 lbs.** per acre of clean seed equivalent (enter in column 31.)

b. For MATURE appraised production:

- (1) Add the value of appraised clean seed production, to the value of appraised production which is not clean seed (nearest whole dollar for each).
- (2) Divide the value of the appraised production by the contract price to determine the whole pounds of clean seed equivalent.

32a.-32b. **Moisture %/Factor:** MAKE NO ENTRY.

33. **Shell and/or Quality Factor:** MAKE NO ENTRY.

34. **Production Pre QA:** Make the following entries in whole pounds.

PRELIMINARY, REPLANT, AND FINAL: Column 19 multiplied by column 31. If no entry in column 31, MAKE NO ENTRY.

35. **Quality Factor:**

DRY PEAS:

REPLANT: MAKE NO ENTRY.

PRELIMINARY AND FINAL: For mature unharvested dry peas which due to insurable causes qualify for quality adjustment as provided in the Dry Pea Crop Provisions and subsection 3 E herein, enter the Quality Adjustment factor (3-place decimal) calculated as follows:

- a. Divide the value per pound of the damaged production by the local market price per pound for the same type of variety dry peas grading U.S. No. 1 on the earlier of the date the peas were sold or the day the loss is adjusted.
- b. If the appraised dry peas have no value, enter "0.000" and explain the entry in the Narrative.

GREEN PEAS (when notice of intent to harvest as dry peas has been given): Enter 1.667 for shell types or 3.000 for pod types; otherwise, MAKE NO ENTRY.

Under section 15 (j) of the Basic Provisions, if due to insured causes, a Federal or State agency has ordered the appraised insured crop or production to be destroyed, enter the factor ".000." Instruct the insured to complete and submit a Certification Form stating the date the crop or production WAS DESTROYED and the method of destruction (also refer to item 40). Document the cause of condition in the Narrative and include a copy of the Certification Form. Also refer to LAM paragraphs 96 J and 102 A for additional information.

36. **Production Post QA:** Make the following entries in whole pounds.

REPLANT: Transfer entry from column 34 (refer to section 4 herein for qualifications and computations).

PRELIMINARY AND FINAL: Column 34 multiplied by column 35. If no entry in column 35, transfer entry from column 34.

- b. Not sold: Document the date(s) of the disposition, how the production was used, or how it was destroyed.

Refer to the LAM and the SP for additional information on claims involving mycotoxins.

- 42. **Totals:** Total of entries in columns 34, 36, 37, and 38. If a column has no entries, MAKE NO ENTRY.

NARRATIVE:

If more space is needed, document on a Special Report, and enter “Refer to the Special Report.” Attach the Special Report to the Production Worksheet.

- a. If no acreage is released on the unit, enter “No acreage released,” adjuster’s initials, and date.
- b. If notice of damage was given and “No Inspection” is required, enter “No Inspection,” the unit number(s), date, and adjuster’s initials (do not enter the unit numbers for which notice has not been given). The insured’s signature is not required.
- c. Explain any uninsured causes, unusual, or controversial cases.
- d. If there is an appraisal in column 37 for uninsured causes due to a Hail and Fire exclusion, show the original hail/fire liability per acre and the hail/fire indemnity per acre.
- e. Document the actual appraisal date if an appraisal was performed prior to the adjuster’s signature date on the appraisal worksheet, and the date of the appraisal is not recorded on the appraisal worksheet.
- f. State that there is “No other fire insurance” when fire damages or destroys the insured crop and it is determined that the insured has no other fire insurance. Refer to the LAM.
- g. Explain any errors found on the Summary of Coverage.
- h. Explain any commingled production. Refer to the LAM.
- i. Explain any entry for “Production Not to Count” in column 62 and/or any production not included in column 56 or columns 49 - 52 entries.
- j. Explain a “NO” checked in item 44, “Damage Similar to Other Farms in the Area.”
- k. Attach a sketch map or aerial photo to identify the total unit:
 - (1) If consent is or has been given to put part of the unit to another use or to replant;
 - (2) If acreage has been replanted to an uninsurable practice as an original practice;
 - (3) If uninsured causes are present; or
 - (4) For unusual or controversial cases.

Indicate on the aerial photo or sketch map, the disposition of acreage destroyed or put to other use with or without consent.

- l. Explain any difference between date of inspection and signature dates. For an ABSENTEE insured, enter the date of the inspection AND the date of mailing the Production Worksheet for signature.
- m. When any other adjuster or supervisor accompanied the adjuster on the inspection, enter the code number of the other adjuster or supervisor and date of inspection.
- n. Explain the reason for a “No Indemnity Due” claim. “No Indemnity Due” claims are to be distributed in accordance with the AIP’s instructions.
- o. Explain any delayed notices or delayed claims as instructed in the LAM.
- p. Document any authorized estimated acres, as instructed in the LAM, shown in column 19.
- q. Document the method and calculation used to determine acres for the unit. Refer to the LAM.
- r. Specify the type of insects or disease when the insured cause of damage or loss is listed as insects or disease. Explain why control measures did not work.
- s. Document the appraisal (plus appraisal for uninsured causes of loss, if applicable) for replanted acreage, and calculations used to show that the qualification for a replanting payment have been met. Refer to section 4 herein.
- t. If any acreage to be replanted in the unit does not qualify for a replanting payment, enter Field No., “NOT QUAL FOR RP PAYMENT,” date of inspection, adjuster’s initials, and reason not qualified.
- u. Explain any “0.000” QA factor entered in columns 35 and 65. Explain any deficiencies, substances, or conditions that are allowed for quality adjustment (including those resulting in destruction ordered by a Federal or State agency), as well as any which were not allowed. Document any excess transportation costs or conditioning costs used to determine the QA factor. If destruction is ordered by a Federal or State agency, record the date the crop was destroyed and the method of destruction. Also, attach to the claim the insured’s completed Certification Form, a copy of the destruction order issued by the Federal or State agency and (if applicable) a copy of the laboratory test results that confirms the presence of injurious substances or conditions.
- v. Document Field IDs, date, and method of destruction of mycotoxin-infested peas if such peas have no market value. For further documentation instructions, refer to the LAM.
- w. Show and identify any “SPECIAL” and/or “BONUS” payment(s), to the insured, in excess of the regular contract payment for delivered peas.
- x. Document the name and address of the charitable organization when gleaned acreage is applicable. Refer to the LAM for more information on gleaning.
- y. Document any other pertinent information, including any data to support any factors used to calculate the production. If on an attachment, enter “Refer to the attachment.”

SECTION II – DETERMINED HARVESTED PRODUCTION

GENERAL INFORMATION:

- (1) Account for ALL HARVESTED PRODUCTION (for ALL ENTITIES sharing in the crop) except production appraised BEFORE harvest and shown in Section I because the quantity cannot be determined later (e.g., released for other uses, etc.). For dry peas, any production harvested from plants growing in the insured crop may be counted as production of the insured crop on a weight basis.
- (2) Columns 49 through 52 are for structure measurements entries (Rectangular, Round, Square, Conical Pile, etc.). If structures are a combination of shapes, break into a series of average measurements, if possible. Enter “Odd Shape” if production is stored in an odd shaped structure. Document measurements on a Special Report or other FCIC-approved worksheet used for this purpose.
- (3) If farm-stored production has been weighed prior to storage and acceptable weight tickets are available showing gross weights, enter “Weighed and Stored on Farm” in columns 49 through 52. Refer to LAM for information on acceptable weight tickets.
- (4) For production commercially stored, sold, etc., make entries in columns 49 through 52 as follows:
 - (a) Name and address of storage facility or buyer.
 - (b) “Seed,” “Fed,” etc.
- (5) There will be no “harvested production” entries for replanting payments.
- (6) If acceptable sales or weight tickets are not available, refer to the LAM.
- (7) If additional lines are necessary, the data may be entered on a continuation sheet. USE SEPARATE LINES FOR:
 - (a) Separate storage structures.
 - (b) Varying names and addresses of buyers of sold production.
 - (c) Varying determinations of production (varying dockage, test weight, value, etc.). Average percent of dockage can be entered when the elevator has calculated the average on the summary sheet, and the determined average is acceptable to the adjuster. Separate line entries are not otherwise required. Refer to the LAM for instructions.
 - (d) Varying shares; e.g., 50 percent and 75 percent shares on same unit.
 - (e) Conical piles. Do not add the cone in the top or bottom of a bin to the height of other production in the structure. For computing the production in cones and conical piles, refer to the LAM.

- (8) There will generally be no harvested production entries in columns 47a through 66 for preliminary inspections.
- (9) If there is harvested production from more than one insured practice or type and a separate approved APH yield has been established for each, the harvested production also must be entered on separate lines in columns 47 through 66 by type or practice. If production has been commingled, refer to the LAM.
- (10) For mycotoxin damage, refer to the LAM for special instructions.

43. **Date Harvest Completed:** Used to determine if there is a delayed notice or a delayed claim (refer to the LAM).

PRELIMINARY: MAKE NO ENTRY.

REPLANT AND FINAL:

- a. The earlier of the date the ENTIRE acreage on the unit was (1) harvested, (2) totally destroyed, (3) replanted, (4) put to other use, (5) a combination of harvested, destroyed, or put to other use, or (6) the calendar date for the end of the insurance period;
- b. If at the time of final inspection (if prior to the end of the insurance period), there is any unharvested insured acreage remaining on the unit that the insured does not intend to harvest; enter “**Incomplete.**”
- c. If at the time of final inspection (if prior to the end of the insurance period), **none** of the insured acreage on the unit has been harvested, and the insured does not intend to harvest such acreage, enter “**No Harvest.**”
- d. If the case involves a Certification Form, enter the date from the Certification Form when the entire unit is put to another use, replanting is complete for the unit, etc., (refer to the LAM).

44. **Damage Similar to Other Farms in the Area?:**

PRELIMINARY: MAKE NO ENTRY.

REPLANT AND FINAL: Check “YES” or “NO.” Check “YES” if amount and cause of damage due to insurable causes is similar to the experience of other farms in the area. If “NO” is checked, explain in the Narrative.

45. **Assignment of Indemnity:** Check “YES” **only** if an assignment of indemnity is in effect for the crop year; otherwise, check “NO” (refer to the LAM).

46. **Transfer of Right to Indemnity:** Check “YES” **only** if a transfer of right to indemnity is in effect for the unit for the crop year; otherwise, check “NO” (refer to the LAM).

- 47a. **Share:** RECORD ONLY VARYING SHARES on SAME unit to three decimal places.
- 47b. **Field ID:**
- a. If only one practice and/or type of harvested production is listed in Section I, MAKE NO ENTRY.
 - b. If more than one practice and/or type of harvested production is listed in Section I, and a separate approved APH yield exists, indicate for each practice/type the corresponding Field ID (from column 16 above).
48. **Multi-Crop Code:** The applicable two-digit code for first crop and second crop. Refer to the LAM for instructions regarding entries of first crop and second crop codes.
49. **Length or Diameter:** Internal measurement in feet to tenths of structural space occupied by crop.
- a. Length if rectangular or square.
 - b. Diameter if round or conical pile. Refer to the LAM to convert circumference to diameter if internal diameter measurement is not possible.
50. **Width:** Internal width measurement in feet to tenths of space occupied by crop in structure if rectangular or square. If round enter "RND." If conical pile, enter "Cone."
51. **Depth:** Depth measurement in feet to tenths of space occupied by crop in rectangular, round, or square structure. If conical pile, enter the height of the cone. If there is production in the storage structure from other units or sources, refer to the LAM.
52. **Deductions:** Cubic feet, to tenths, of crop space displaced by chutes, vents, studs, crossties, etc. Refer to LAM for computation instructions.
53. **Net Cubic Feet:** Net cubic feet of crop in the storage structure. Refer to the LAM for computation instructions.
54. **Conversion Factor:** Enter Conversion Factor as 0.8.
55. **Gross Production:** Column 53 multiplied by column 54, results in bushels rounded to tenths.
56. **Bu., Ton, Lbs., Cwt.:** Circle "Lbs." in the column heading.

GREEN PEAS (timely harvested):

- a. **Shell Type:** Enter the result of the total dollar amount paid or payable from the processor, or which should have been paid under the terms of the processor contract for the quality and quantity of the peas delivered to the processor, divided by the base contract price per pound to five decimal places for the tenderometer reading or sieve size number shown on the Special Provisions for the type of green peas rounded to whole pounds.

- b. **Pod Type:** Enter the result of the total dollar amount paid or payable from the processor, or which should have been paid under the terms of the processor contract for the quality and quantity of the peas delivered to the processor, divided by the base contract price per pound to five decimal places.
- c. The base contract price(s) must agree with the acreage report. If the insured has contracts with two or more different processors showing different prices per pound, record on separate lines and explain on a Special Report.
- d. If an insured receives a regular payment for harvested green peas PLUS a special payment (such as a “bonus” to fulfill a guarantee in the processor contract), use only the regular payment received when dividing by the contract price per pound. Identify SEPARATELY any “special/bonus” payments in the Narrative. Determine whether the regular payment(s) for harvested production is a reasonable amount.

SHELL TYPE AND POD TYPE GREEN PEAS HARVESTED AS DRY PEAS (if consent has been given to harvest as dry peas): Enter to the nearest whole pound, the amount of **dry pea production** after deduction of dockage. No quality adjustment is allowed on this production.

CONTRACT SEED PEAS: Enter the result of the total dollar amount paid or payable from the seed company, or which should have been paid under the terms of the seed company contract for the quality and quantity of the seed peas delivered, divided by the base contract price per pound to five places (document price per pound in the Narrative).

- a. The base contract price must agree with the acreage report.
- b. No quality adjustment is allowed on this production.
- c. If contract seed peas have no market value (rejected for low germination), enter “0” (zero) pounds and explain in the Narrative.

DRY PEAS: Enter the gross production in whole pounds, before deductions for dockage, and foreign material for production **that is:**

- a. Weighed and stored on the farm.
- b. Sold or Stored in commercial storage: Obtain gross production for the unit from the summary and/or settlement sheets. Individual load slips only will not suffice unless the storage facility or buyer will not provide summary and/or settlement sheets to the insured, and this is documented in the Narrative.
- c. Stored in odd-shaped structures, conical piles, or a cone on the top or bottom of a bin: The adjuster must compute the amount of gross production. Refer to the LAM for cubic footage and production computations. A copy of all production calculations must be left in the file folder.
- d. For farm stored production, calculate the pounds of production as follows: Column 55 times column 60a (actual test weight), results in whole pounds.

- (3) Commercially stored: Enter the value per pound of the damaged production on the date the loss is adjusted (final inspection).
 - (4) Fed to livestock: If acceptable weight records are available showing the necessary quality adjustment information or if a sample for grading is available, enter the value per pound of the damaged production on the date the loss is adjusted (final inspection).
- c. If the damaged production has no value, enter “0” (zero) and explain it in the Narrative.
 - d. Identify in the Narrative, the reason(s) for quality adjustment and any other factor(s) that affected the bid price for the damaged dry peas even though such factors may not have qualified the dry peas for quality adjustment. Specify whether or not the factors were allowed in establishing the value.

64b. **Mkt. Price:**

DRY PEAS except contract seed peas: If an entry is in item 64a, enter the local market price for U.S. No. 1 dry peas/lentils of the same type (on the earlier of the date the production was sold or final inspection).

GREEN PEAS AND CONTRACT SEED PEAS: MAKE NO ENTRY.

65. **Quality Factor:**

DRY PEAS (except contract seed peas): Column 64a divided by column 64b, round results to three decimal places.

GREEN PEAS HARVESTED AS DRY PEAS (if consent has been given to harvest as dry peas): Enter a factor of 1.667 for shell types, and 3.000 for pod types to determine the green pea equivalent. No adjustment for quality deficiencies will be allowed for such production.

GREEN PEAS AND CONTRACT SEED PEAS: MAKE NO ENTRY.

If due to insured causes, a Federal or State agency has ordered the insured harvested crop production to be destroyed, enter the factor “.000.” Refer to instructions for items 35, 40, and 41 above, and the Narrative for required documentation.

66. **Production to Count:** Make the following entries in whole pounds.

- a. If there is an entry in column 65: Column 63 multiplied by column 65, results in whole pounds.
- b. If there is no entry in column 65: Transfer entry from column 63.

67. Total of all column 63 entries. If no entry in column 63, MAKE NO ENTRY.

68. **Section II Total:**

PRELIMINARY AND REPLANT: MAKE NO ENTRY.

FINAL: Total of all column 66 entries in whole pounds.

69. **Section I Total:**

PRELIMINARY AND REPLANT: MAKE NO ENTRY.

FINAL: Total of all column 38 entries in whole pounds.

70. **Unit Total:**

PRELIMINARY AND REPLANT: MAKE NO ENTRY.

FINAL: Column 68 plus and column 69, results in whole pounds.

71. **Allocated Prod:** Refer to paragraphs 126 C (5) and 127 of the LAM for instructions for determining allocated production. Enter the total production, rounded to whole pounds, allocated to this unit that is included in Section I or II of the Production Worksheet. Document how allocated production was determined and record supporting calculations in the Narrative or on a Special Report.

72. **Total APH Prod:** Result, rounded to tenths, of subtracting the total of column 37 (item 42 "Totals") and item 71 (Allocated Prod.) from item 70 (Unit Total). If no entries in item 37 and item 71, transfer the entry in item 70.

The following required entries are not illustrated on the Production Worksheet example below.

73. **Insured's Signature and Date:** Insured's or insured's authorized representative's signature and date. BEFORE obtaining the signature, REVIEW ALL ENTRIES on the Production Worksheet WITH THE INSURED or the insured's authorized representative, particularly explaining codes, etc., that may not be readily understood.

Final indemnity inspections and final replanting payment inspections should be signed on bottom line.

74. **Adjuster's Signature, Code Number, and Date:** Signature of adjuster, code number, and date signed after the insured or insured's authorized representative has signed. For an absentee insured, enter adjuster's code number ONLY. The signature and date will be entered AFTER the absentee has signed and returned the Production Worksheet.

Final indemnity inspections and final replanting payment inspections should be signed on bottom line.

75. **Page Numbers:**

PRELIMINARY: Page numbers - "1," "2," etc., at the time of inspection.

REPLANT AND FINAL: Page numbers - (Example: Page 1 of 1, Page 1 of 2, Page 2 of 2, etc.).

				41. Mycotoxins exceed FDA, State or other health organization maximum limits? Yes <input type="checkbox"/>																			

NARRATIVE (If more space is needed, attach a Special Report) *Example 2 uses the maximum allowance when shares are applicable. 20% of prod. guar. (1,050 lbs. x 20%) = 210 x \$0.09 (price election) = \$18.90 x .500 (share) = \$9.45 200 lbs. (maximum lbs allowed in policy) x \$0.09 (price election) = \$18.00 x .500 (share) = \$9.00 The lesser of \$9.45 and \$9.00 is \$9.00 Actual lbs. per acre allowed = 100 lbs. (\$9.00 ÷ \$0.09) (Rounded to whole pounds) See attached Special Report for wheel measurements.*

EXAMPLE REPLANT CLAIMS

This form example does not illustrate all required entry items (e.g., signatures, dates, etc.).

**TABLE C - PEAS OR PODS PER PLANT FACTOR / YIELD FACTORS
(Continued)**

<u>DESI CHICKPEA VARIETIES</u>	<u>Peas Per Plant Factor</u>	<u>Yield Factor</u>
All Varieties	15	.053
<u>GREEN PEA VARIETIES</u>	<u>Peas per Plant Factor</u>	<u>Yield Factor</u>
<u>Shell Type:</u>		
Alaska	28	.110
Small-Sieve Alaska	40	.157
Allsweet and Others	18	.060
<u>Pod Type:</u>	<u>Pods per Plant Factor</u>	<u>Yield Factor</u>
Sugar Snaps and Others	9	.016
For GREEN PEAS, when notice of intent to harvest as dry peas has been given and the acreage remains unharvested, appraise on a dry pea basis. The yield factors for such acreage will be as follows:		
<u>Shell Type</u>	<u>Peas per Plant Factor</u>	<u>Yield Factor</u>
Alaska	28	.052
Small-Sieve Alaska	40	.080
Allsweet and Other	18	.080
<u>Pod Type:</u>	<u>Pods per Plant Factor</u>	<u>Yield Factor</u>
Sugar Snaps and Others	9	.080

EXHIBIT 1

DETERMINING DOCKAGE/FOREIGN MATERIAL FOR DRY PEAS INCLUDING LENTILS

A. EXAMPLE OF GRADE CERTIFICATE

FORM FGIS-994
JAN 07

UNITED STATES DEPARTMENT OF AGRICULTURE
FEDERAL GRAIN INSPECTION SERVICE
AGRICULTURAL MARKETING ACT OF 1946

Approved OMB No. 0580-0013

 **COMMODITY SUBMITTED SAMPLE INSPECTION**
OFFICIAL PINK CERTIFICATE
EXAMPLE ONLY – NOT FOR OFFICIAL USE

ORIGINAL
US-BAR-1-00012
NOT NEGOTIABLE

LEVEL OF INSPECTION: Original
ISSUED AT: KANSAS CITY, MO
DATE OF SERVICE: November 28, 2011

IDENTIFICATION:
L 1234

NOT OFFICIALLY SAMPLED

COMMODITY: Lentils Thresher-Run

RESULTS:

Sieve Size 11/64	Small Lentils In Dockage 3.5 %
Splits In Dockage 1.1 %	Other Material .2 %
Total Dockage 4.8 %	Weevil Damaged Lentils 0.3 %
Heat Damaged Lentils 0.0 %	Damaged Lentils 0.3 %
Split Lentils 0.0 %	Foreign Material 0.4 %
Total Defects And Foreign Material 1.0 %	Total Dockage, Defects & Foreign Material 5.8 %
Skinned Lentils 0.0 %	Inconspicuous Admixture 0.0 %

REMARKS:
Thresher Run

After the removal of dockage, this lot would have graded U.S. No. 2 Lentils under the U.S. Standards for dockage-free lentils.

END OF REMARKS

The sample identification and inspection results shown on this certificate are assigned only to the quantity in the sample and not to any identified carrier, container, or lot from which the sample may have been taken.

I CERTIFY THAT THE SERVICES SPECIFIED ABOVE WERE PERFORMED WITH THE RESULTS STATED.

APPLICANT NAME: ABC PEA COMPANY
NAME OR SIGNATURE:

ISSUING OFFICE: FGIS - Subjective Analysis and Board Appeals Group

This certificate is issued under the authority of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621 et seq.), and the regulations thereunder (7 CFR 960.1 et seq.), and is receivable in all courts of the United States as prima facie evidence of the truth of the statements therein contained. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal Laws.
WARNING: Sec. 203(b) of the Agricultural Marketing Act (7 U.S.C. 1623(b)) requires that anyone who shall knowingly buy, sell, lease, store, transport, or otherwise handle any official certificate, or aid, assist, or be party to such actions, is subject to a fine of not more than \$1,000 or imprisonment for not more than 1 year, or both, and that the same shall be applicable to any person who shall violate any provisions governing such services shall be accomplished without discrimination as to race, color, religion, sex, national origin, or ancestry.
According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information is 0580-0013. The time required to decline the recordkeeping requirement is to average 63.206 hours per recordkeeper annually, including the time to retain such records, and to notify, disclose, and report to third parties such recordkeeping requirements.

EXAMPLE ONLY – NOT FOR OFFICIAL USE
