SUBJECT: Addendum to 2001 Actuarial Document (Special Provisions) Pilot Citrus Dollar Program
(Navel Oranges 0215)

In the current Special Provisions for Insurance (SPOI) for the pilot citrus dollar program (navel oranges 0215) for four counties (Fresno, Kern, Madera, and Tulare) in California, statement OEH 9 was inadvertently deleted. This statement contains dollar amounts for the allowable cost and minimum value.

The statement should read as follows:

OEH 9

Allowable cost for harvested production is \$1 per carton for Navel oranges.

The minimum value to be used for harvest and appraised production will be \$2 per carton for Navel oranges.

A training example with the allowable cost and minimum value was presented at the November NCIS update meeting. Local agents in California have been informed by the Davis Regional Service Office that those amounts for allowable cost and minimum value have not changed, but did not show up on the SPOI.

This informational memorandum is for the purpose of transmitting information and the expiration date is December 31, 2000.
