INFORMATIONAL MEMORANDUM: R&D-00-055

TO: All Reinsured Companies
All Risk Management Agency Field Offices

FROM: Tim B. Witt /s/ Denise Hoffmann for
Deputy Administrator

SUBJECT: Actuarial Addendum - Select 2001 Crop Year Potato Actuarial Documents

BACKGROUND:

The 2001 crop year FCI-35 Coverage and Rates Actuarial Documents for Actual Production History Plan 90 potatoes in the States of Missouri, North Carolina, and Virginia are missing both the Coverage Level Rate Differentials table and the Transitional Yields table. These omissions affect a total of 14 counties in the three States.

ACTION:

The attached Potato Actuarial Addendum provides missing Coverage Level Rate Differentials and Transitional Yields for the 2001 crop year. These values are the same as those offered in the 2000 crop year actuarial documents, but were inadvertently omitted from the 2001 documents.

Insurance providers must inform and provide agents approved to sell potato insurance in Missouri, North Carolina, and Virginia this Actuarial Addendum. Actuarial documents will not be "refiled"; however, the Actuarial Data Master has been updated to reflect this Actuarial Addendum. The correct documents may also be printed from the actuarial document browser found under Tools and Calculators on the RMA website at <http://www.rma.usda.gov>.

DISPOSAL DATE:

This Informational Memorandum is effective until the Actuarial Addendum information is incorporated into the next Actual Production History Plan 90 potato filing for these three States.
